FLORENCE'S MARKET DAMAGED BY FIRE LAST TUESDAY MORNING

A fire which started in the attic space of Florence's Market, on Highway 80, in Alpine, early last Tuesday morning, caused an estimated damage of \$4,000 to the building.

There was damage to the merchandise by smoke and water. However, according to Jerry Harmer, this damage was kept at a minimum by the intelligent work of the Alpine volunteer firemen. An inventory is now being made of the amount of the merchandise that can be salvaged.

The fire was reported to the Fire Department at 3:55 a.m. by a telephone call from a person who did not give his name, but stated that he lived "across the road" from Florence's.

Because the fire siren did not go off, probably due to wet wires, the Fire Station custodian called the night duty volunteer firemen

James Doonan, opposing candidate for this position received 31 votes.

INTIMATE GLIMPSES

By BEA LaFORCE

When we have disappointing weather, cold winds in springtime while we long for balmy breezes, drizzles of rain while we need the sun; earthquakes and floods, tidal waves, drought and blizzards, I sometimes wonder about this planet. Maybe it wasn't meant to be inhabited by human beings. Could it be that we just blundered in here by some characteristically human cocky exploring trip and got stranded? Say our space ships broke down or crashed on some long ago ocean shore? Or perhaps we just can't get the hang of how to live on the Earth. Man was not the first animal here. He's learned many survival tricks from smarter animals with less intelligence. Still, we build towns in the paths of temperamental rivers given to seasonal rages; we build cities in the known war-path of wrecking tornadoes and cyclones. Even the weed rat knows to build her house high enough for safety when the season's to be a wet one with the gullies awash and low spots ponded.

We invade every environment, competing with the natives whom we usually consider inferior, especially if they are not human ones. We've conquered, more or less, the water, and the air, and Space is sure to be next. Now there's talk of going into the earth like the burrowing animals, for the purpose of survival from all this conquering. From this standpoint the gopher should be our model since he is the most successful burrowing animal. He is far more numerous now, according to reports, than his natural enemies, the gopher snake, hawk, weasel, fox and house cat, and despite the efforts of his other enemies, angry gardeners with traps and poison baits; farmers and ranchers with more powerful methods, to eradicate him. Underground often more than 15 feet, the gopher is safe from most of these threats to his existence.

His name comes from the French word *gaufre*, meaning honeycomb. The name was given to him by early French settlers in the mid-west who are said to have been the first pioneers to see his dig-gins destroying the prairie. He can live in all climates in the United States from the hottest to the coldest. Of all rodents, the pocket gopher, the one who shares our best-climate-in-the U.S.A. here, is easily the ugliest to look at and the most unpopular little varmit we can name. Until California began to grow alfalfa, this ugly little

Fire Commissioners Adopt Budget

The Board of Fire Commissioners of the Alpine Local Fire District held an adjourned meeting last Monday night for the purpose of adopting a preliminary budget for the next fiscal year, and to prepare an Ordinance for burnnig regulations.

The preliminary budget had been reviewed by the Board at a meeting last week at which time all of the items for the preliminary budget had been agreed upon except for capital outlay expenditures. At last Monday's meeting, the Commissioners agreed on the sum of \$22,000 for capital outlay for fire equipment. This made the total mount for the preliminary budget \$36,595.

The Board ordered that a public hearing on the budget be set for 8:00 p.m., Monday, June 8th at the Fire Station.

The Board reviewed the provisions of last year's burning regulations and after making minor changes, held a reading of an Ordinance incorporating the regulations for burning for the year 1964.

A time was set for a public hearing by the Board on the proposed burning Ordinance, also to be held at 8:00 p.m. on Monday, June 8th, at the Fire Station.

Caution Urged to Avoid Being Bilked

Noting that mail frauds filch millions from the public annually and are increasing, Postmaster Phil Hall urged that local residents take care in responding to solicitations from unknown companies or to "offers too good to be true."

Mr. Hall said that he had received informational material from Postmaster General John A. Gronouski about the problem and that the Postal Service is pressing a strong drive against quackery by mail, land fraud promotions, gyp

Registration of Kindergarten Pupils

May 13 and 14 will be registration days for students who will be starting kindergarten in September. The registering will be handled from 9:15 a.m. to 3:15 p.m. both days in the Alpine School Auditorium. After that date registrations will be handled through the school office.

Children being registered must have reached their fifth birthday on or before December 2, 1964, according to Mr. Leo Ryan, Alpine School principal.

RUSHING, FREELAND APPOINTED AS ALPINE FIRE COMMISSIONERS

The County Board of Supervisors, last Tuesday, appointed Fred D. Rushing and E. L. Freeland to the Board of Fire Commissioners of the Alpine Local Fire District.

They were appointed to fill the vacancies created on the Board by the resignation of Commissioner Phil Hall

whose term did not expire until 1965, and by the resignation of J. C. LaForce, who had previously been a member of the Board and elected to the Board for a three-year term as a write-in candidate at an election held last April 7.

VFW Post Being Planned for Viejas

A number of men from the Viejas, Jamul, Sycuan, Campo, Mesa Grande and Barona Indian Reservations are in the process of forming an all-Indian Veterans of Foreign Wars Post at the Viejas Reservation.

The pro-tem officers for the new post are Adolph B. Brown as Commander, Tom Hyde as Senior Vice Commander, Clarence R. Brown as Junior Vice-Commander. They now have 28 applications for membership in the new Post, which is over the number required for the formation of a Post. The meeting place will be the Community House at the Viejas Reservation which the men are now redecorating for the purpose.

As a benefit for the new Post a barbecue will be held on Sunday, June 7, at Viejas. The Little Road Runners, Indian dancers, will perform the eagle dance, the hoop dance and others. Members of the San Diego Sky Divers Club will put on a demonstration of sky diving landing on the Reservation. Live music will be furnished for dancing, and free horseback rides will be offered. All this in addition to the pit barbecue.

The Alpine VFW Post 5233 is assisting the new group in this affair in order to make it possible for the new Post to be organized.

Any information concerning the new Post, or for tickets for the barbecue, can be obtained from the pro-tem officers. Commander Brown can be called at 445-2065, Vice-Commander Hyde at 445-2735, and Vice-Commander Brown at 445-3374.

Resuscitator Donated To Crest

Fire Chief Roger Dutton and his brother, Charles W. Dutton, have donated a portable resuscitator to the Crest Volunteer Fire Department. The brothers gave this badly-needed emergency equipment in memory of their mother, Mary E. Dutton, who died in 1963.

Chief Dutton said, "My mother suffered an attack in the middle of the night. The fire department was called, responded promptly, and fought to save her life, working for one and one half hours with efforts of the highest quality, using the department's large resuscitator, while we waited for the ambulance to arrive." Dutton says, "Mother could have been taken to the hospital immediately, had we had access to a portable resuscitator. This knowledge prompted my brother and me to see that the Crest has one for future emergencies."

The resuscitator will become part of the equipment of the Fire Department's new Rescue Unit, which is scheduled to be put into service this month.

Section of Hiway 80 To be Widened

The Kenneth H. Golden Company of San Diego was low of five bidders, quoting a bid of \$790,861 for the construction of additional inside lanes on 5.1 miles of Interstate 8 (U.S. 80) to convert the existing six-lane freeway to an eight-lane facility, stated Jacob Dekema, District Engineer for the California Division of Highways in San Diego.

The Daley Corporation and the V. R. Dennis Construction Company both of San Diego, were second and third low bidders quoting prices of \$822,051 and \$837,946 respectively.

The section to be converted to an eight-lane freeway extends from three-tenths of a mile east of Fairmount Avenue in San Diego to one-half mile east of Spring Street in La Mesa, and will provide a full eight-lane freeway from Taylor Street in San Diego to Chase Avenue off-ramps in El Cajon. This project will also include planting of oleanders in the median.

The bids have been taken under consideration by the Director of Public Works. If they are found to be satisfactory, work could be underway this spring, with completion scheduled in the fall.

Lively Oaks to Attend Cinerama

The members of the Lively Oaks, Alpine's senior citizen's club, will attend the Cinerama in San Diego to see "It's A Mad, Mad, Mad, Mad World." The trip will be on Wednesday, May 13 for the 2:30 matinee.

All Alpine area senior citizens are invited to join the Lively Oaks members on this trip. The cost is \$1, and the tickets must be purchased by Monday, May 11, which is the date of the club's next potluck meeting at the Youth Center. Tickets may be obtained by calling either Mrs. Nola Brabazon, 445-2086, or Mrs. Miriam Schulze, 445-2156.

Car pools for transportation to the Cinerama are being arranged for anyone who needs transportation.

The History of Mother's Day

Mother's Day has been a holiday nationally observed on the second Sunday of May since 1914 when President Woodrow Wilson issued a proclamation setting aside that day as "a public expression of our love and reverence for the Mothers of our country."

A forerunner of our present holiday was "Mothering Sunday" celebrated in England for many years on the fourth Sunday of Lent, and in Yugoslavia just before the Christmas season. Family reunions on this day were especially popular with servants and apprentices. Flowers were given, various kinds of cakes baked, and children attended to household tasks so Mother could attend morning church services. This day was discouraged by the Gentry.

Loving sons and daughters had since tried to revive a day for honoring Mothers, but success awaited the inspiration, determination, and contacts of Miss Anna Jarvis of Webster and Grafton, W. Va. Of 11 children born to her Mother, Anna was one of four who survived. A graduate of the Female Seminary in Wheeling she never married, but chose teaching as her career and cared for a blind sister.

Anna's close companion was her Mother, Mrs. Ann Reese Jarvis, for 20 years a Sunday School teacher. She once formed a "Mother's Friendship Day" to abolish hate between North and South following the Civil War. All former Union and Confederate soldiers of the county attended a gathering and shook hands. On Mrs. Jarvis' death, May, 1905, the Grafton church bell tolled 72 times, her age. Anna was grief stricken and two years later on the second Sunday of May, disclosed to friends at her home a plan for starting a Mother's Day. John Wanamaker Philadelphia merchant, hearing of the plan, urged her to campaign for a national holiday, a minister

Scouts Have Fun Weekend

The Boy Scout Troop of Alpine, No. 105 met at the Flying A Station, Saturday at 10:00, May 2, 1964 for a skating party. Those attending were Scouts Tim Bowler, George and Forrest Brant, Jim Ingalls, Robert Clinton, Billy Sansoucie, accompanied by Mr. Jay Clinton and Mr. George Brant.

Prior to the skating party, the boys went aboard the Star of India and after having lunch took another tour of the USS SPINAX (SS 489).

Saturday's fun was ended by a roller skating party.

The following day, Sunday, a group of Scouts hiked to the top of Mt. Viejas. On this event, Gary White, George Kochel, and Wayne Hayward joined the fun. The boys reached the top, rested, celebrated and left a message in a container for any future hikers to read.

The Scouts, practicing scouting procedures followed trail signs up and down the mountain arriving at their destination, "home" at approximately five o'clock, a weekend long to be remembered.

Chamber Music to be Presented May 17

A joint presentation of the San Diego Symphony Orchestra and the Fine Arts Gallery will bring the fifth and final program in this series of Chamber Music Concerts on Sunday, May 17 at 3:00 p.m. The setting is the Italian Room of the Gallery in Balboa Park.

For this concert of strings and winds, players of the San Diego Symphony will be featured. Among the compositions performed will be the Chausson Concerto for Piano and Violin, a particularly fine example of this composer's work. Soloists are concertmaster Dr. Robert Emile and Lyell Barbour, pianist. Schubert's octet in F major, opus 166 will comprise the second half of the program.

Friends of Jim Shorter, owner of the service station at Jamul Junction, trapped a male bobcat one night last week near the center of Jamul. Held by the forefeet it measured four feet in length, and weighed at least 20 pounds.

A Word From Mt. Empire School Supt.

The growing labor pool of unskilled and uneducated people makes it necessary to see that the children of the Mountain Empire Unified School District get the teachers, the materials, and the equipment they need for a good education, so that they will be able to have a place in our advanced and complex society.

At present, your children and the children of the Mountain Empire Unified School District are using old and worn equipment and using old and worn materials—which forces the teachers to use old and obsolete teaching methods.

Your children, your home, your schools, you State and your Country will suffer if the children, the future adults and leaders, do not have a good education (which they must have) to make sound and wise decisions.

Your School District needs a \$1 override, 50 cents more than last year to be able to continue its present program and provide for the replacement of some of the old equipment, materials and curriculum methods. Expected changes and additions are (1) three new busses (2) a counseling program for the Junior High School (3) a foreign language program for all the sixth graders (4) a new and modern physics program (5) a new and modern mathematics program and (6) an art room and audiovisual for the Junior High School in the junior high school area.

Don't deny your children, or the children of your community, these needed things. Vote yes on June 2 for the tax override and give them the chance and education they need.

Grossmont College To Graduate 170

In a ceremony to be held on the Monte Vista High School patio June 12, Grossmont College will graduate its third and largest class to date, 170 will receive degrees. Last year there were 69 graduates and the first class held only 18.

A noted professor of education from the University of California at Los Angeles, Dr. Lawrence E. Vredevoe, will make the address.

DESCANSO

By PAT MARTIN

You are invited to attend a question and answer coffee and to meet Mr. Henry Boney, a candidate for the Board of Supervisors in the Second District. It will be held on Saturday, May 9, from 1 to 3 p.m. at the Roberts Ranch on Japatul Road in Descanso. Refreshments will be served.

★ ★ ★

We were saddened by the death of an old friend and neighbor, Ola L. Arnold, who passed away after suffering a heart attack on April 30 at the home of a friend in Descanso. Private services were held Monday at Paris Mortuary in El Cajon, with burial at Fort Rosecrans. Mr. Arnold was a native of San Diego County, and lived in Descanso for many years before moving to El Cajon several months ago. He worked as a ranch foreman before retiring. In the ground breaking ceremonies for the 1915 Exposition in Coronado, which was held to celebrate the opening of the Panama Canal, he won a prize in the bronc riding contest. He was a member of Post 303, American Legion in El Cajon. Mr. Arnold is survived by his widow, Mary; two daughters, Mrs. Helen Flowers of Descanso and Mrs. Grace Roberson of Oregon; a son, Eugene, of El Cajon, and 12 grandchildren. Our sympathy is extended to the family.

The PTA wishes to thank all the children, teachers, and everyone who helped make this a successful show. Elma Rehdorf and Ethel White were coordinators and chairmen of the show. Publicity and tickets were by Jody Barnett, stage decorations by Marian Burrell and Pat Martin, refreshments chairman was Stella Burrows. Prizes won for ticket sales were won by Sue Nies and Maria Herbertson.

Chet Baker and Johnny Wiseman went on with a comedy routine, and Jimmy Martin said a poem, The Hairy Dog. The Organ Grinder song was next with Terry and Timmy White, followed by the poem, Ooshy Gooshy, by David King. Corky Hill, David Wiseman, Charles Duval, and Rene Leroux had the audience laughing with a comedy barbershop sketch. Several poems followed, Whiskey Friskey, by Frank Thing and Kandi Grzeckowski; There Was a Little Turtle, by Steve Baker and Kandi Grzeckowski, and I Like Mice, by Kathy Lewis. A Hula dance, complete with grass skirt and leis was next by Cindy Dorman, who had some help from her brother, Brian. Kathleen Molitor, Pam Wiseman and Toni Rehdorf, dressed as hobos, did the poem, Fellowship. They were followed by another comedy team, Cliff Doyle and Jimmy Wiseman. Next on the program was a piano solo by Lynn Doyle, followed by the poem, One Bright Day, by Marie, Linda Leroux and Vickie Sommerville. Toni White and Patsy Burrows, dressed in long dresses and flowered hats sang Walking Through the Park. A poem, Bad, by Ruth Ann King, and a comedy routine by Ronnie Burrell were next. Civic Group to Appeal to County

The Crest Civic Group held its last meeting of this year Monday, May 4. It was decided that a group of citizens should be organized to represent the Crest at Civic Center, San Diego, when the annual Budget Hearing comes before the County Board of Supervisors later this month. The representatives would ask for further action on the completion of repairs to La Cresta Road this year.

Many Hill people will remember when they went down in a body and appeared before the Board four years ago, and won their promise of funds to be allotted to make the only main access to the Crest safe for the communities' drivers. Many of the most dangerous curves have been straightened, but a lot of work remains to be done before La Cresta Road ceases to be a hazard.

Civic group president James Doonan says, "If we do not press our advantage now, before this year's budget is allocated, there may be no more work done for another year." Doonan says, "This issue, is, of course, of vital concern to the entire community, and calls for the support of every Crest citizen." Anyone interested in being part of the petitioning group may receive information and details by calling James Doonan at 444-8988.

Bird Nests Found In Library

Don't be too alarmed! Mrs. Roy Setser, First Grade teacher in the Alpine school has loaned her collection of various bird nests to the Alpine Public Library. It is really worth a visit, all the way from a blue jay's nest to a hummingbird's place of residence.

The nests, of course, range in various shapes and sizes and of course are built of string, feathers and stuffing, possibly from an old mattress.

Along with a lovely display of Iris, grown by Mrs. Margret Cater of the Willows area, and a vase of lotus blossoms, one realizes spring has definitely arrived in Alpine. And, if you are really in a springtime mood, "Her Garden Was Her Delight," a new book written by Buckner Hollingsworth is available for your reading pleasure.

First Aider Speaks At Deerhorn Valley

The monthly meeting of the Deerhorn Valley Civic Club took place last Friday evening at the Young Christian Workers' Camp building with Mr. Amundson presiding. The President reported to the membership-at-large on the Board of Directors meeting which had taken place the previous week at Mr. and Mrs. Roger Temple's home, concerning a proposed name-change for the Club as well as a number of revisions to the Club's Constitution. Mr. Amundson suggested the possibility of renaming the Club "The East County Property Owners Association"; stated that copies of the "revised" Constitution would be sent to all members in the mail prior to the Club's June meeting; requested thorough study of the proposed Constitution and name; and asked for an "all-out" meeting next month for a full representative vote on the proposed revision and name-change. Mr. Vallee, Vice-President, stated that he would try to have a film for the next meeting on the Shriners' work in children's hospitals. The President expressed his appreciation on behalf of the Club to Mr. and Mrs. Hendrickson for the donation of two dozen coffee cups. Mr. Amundson mentioned that the Road Department would be contacted to improve the entrance to the YCW Camp building, and also requested that Mr. and Mrs. Ray Campbell act as the host and hostess for the June meeting. THE ZONING PROBLEM

A serious situation has cropped up among many horseowners who have purchased properties somewhat in proximity to residential areas.

Seeking the peace and quiet of the countryside and a suitable residence where they could enjoy keeping their own horses, instead, these property owners with horses (new and old) have found themselves seriously embroiled with their local zoning boards who object to horses being kept within their area of jurisdiction.

Thus the lines of battle have been drawn, with the zoning boards on one hand and the horseowners determined to uphold their rights in a free and democratic society, daring to fight back. Apart from the principles involved, untold sums of property values are at stake in the issue.

Needless to say, our reader's sympathies naturally lie with the property owners over whose acreage live the equine whose existence is being threatened in those vital areas.

But in every issue, there are always two sides and zoning boards present the telling argument of nuisance values inherent sometimes with the keeping of horses. They have cited cases of loose horses, flies, odors, traffic hazards and in some instances, inhumane treatment and care of the animals in their communities. Their testimony unfortunately has been damaging to the cause of the kind and thoughtful owner who erects a suitable habitation for his horses and takes proper care of them.

However, the zoning boards can be defeated only if ALL owners of horses take the proper steps in sanitation, stabling, property upkeep, fencing and observe the rules of property trespass and safety on the highway.

Another move would be to unify and present a solid force of opposition by protest representation through the proper channels of approach to problems of this nature.

But most of all, it seems to us, would be through example and leadership. The involved horseowners should themselves act as agents for the clean-up and or improvement of the conditions of horses owned in their own communities.

Stories constantly reach this editorial desk about the abuses encountered by the defenseless horse by cruel and thoughtless owners.

John W. Patten, the New Jersey horse journalist not long ago featured an article in this publication about the deplorable stabling conditions of many horses in his area.

Certainly, the "image-making" must extend much beyond the relatively enlightened show ring, polo field and race course. It must start right in your own backyard and the back paddock of your neighbor.

Start now with a check list: Do you have a comfortable CLEAN stable for your horses? Do you have a sanitary and efficient method of manure disposal? How about your fly control measures? And odors? Are your fences not only attractive but are they stout enough to keep horses safely on your own property? How about grooming?

There are of course many more measures everyone who owns horses should take to insure their existence on your land and prove an asset and mark of beauty to the community, not an eyesore, nuisance or even a danger to the well-being of your neighbors who have missed the joys of a life with horses at closehand.—L.N.

* * *

The above editorial appeared in the April 15, 1964 issue of the Horse & Show Journal which is published in Cleveland, Ohio.

The conditions discussed in this editorial are typical of what is happening all over the United States, not only in regard to horses and horse activities, but also in regard to many other lines of endeavor which are carried on throughout the country; such as, chicken ranches, turkey ranches, dairies, meat processing plants, quarries, asphalt paving plants, etc.

Letter To Editor

Letters must have signature and address, be subject to being condensed and will not be returned. The opinions expressed are the opinions of the writers and may not necessarily reflect the opinions of the Alpine Echo.

Dear Sir:

I did not get the name of the reporter who took my daughter's picture at the Greater San Diego Science Fair, so will you pass this on to the proper person?

We wish to thank you for the pictures and for the wonderful write-up you did in your paper on Cathryn and her science project, "The Julian Area." It was so kind of you to do this for her. She will always treasure this and her other moments and her memories of the great experiences she had in connection with the Science Fair. She had a wonderful time and this article is a crowning touch to the whole experience. She wants you to know how grateful she is to you. She would like to give a copy of the article to the principal, Mr. Waters, who was throughout her work so interested and encouraging—also she would like to send a copy to her grandmother and two or three other relatives.

I am enclosing \$1 to pay for four or five extra copies of the April 23 issues if you still have some left. Please use the rest for postage and for the copy you have already sent.

And, please accept our deepest thanks for your kindness and courtesy.

Sincerely,
Elizabeth B. Walter

Cake Bakers to Vie At East County Fair

The cake baking contest at the Eastern San Diego County Fair will be held Friday, May 29 and will be enlarged over fifty percent this year according to Special Activities Coordinator, Bernie Svalstad.

A new phase of the event will be the auctioning of the top three finalist's cakes after judging. "This," said Svalstad, "puts the cake bakers in the same high plane with the contestants in the blue-ribbon livestock contests."

The first judging will take place Friday, May 29 at 6:00 p.m. There will be a bake-off between the top three finalists in the specially set-up kitchen at the Fairgrounds, Sunday, May 31 at 5:00 p.m.

Warning Given on Rattlesnake Hazard

Spring is a big time of year for rattlesnakes. According to Jerry Staedeli, principal reptile keeper at the San Diego Zoo, they wake up after hibernation wanting food and a mate. They go looking for both. That is why the Zoo and the Department of Public Health have had a rash of complaints about rattlesnakes lately.

Mr. Staedeli says rattlesnakes strike only when they are surprised and feel threatened. He points out that 90 per cent of the people bitten by rattlers are struck on the leg below the knee or on the arm below the elbow. His advice is to "watch where you put your hands and feet. Don't put your hands under rocks or into a hole unless you can see the end of it."

A person bitten by a rattler should try not to exert himself. Exertion spreads the venom. The victim should be taken to a physician immediately. If you plan to camp or hike in a remote area, take someone with you. Before you go, ask your physician what first aid treatment he advises for rattlesnake bite until medical care is obtained.

by phone. Fireman Bud Cooper was the first fireman on the scene, getting there at 4 a.m. The firemen found the store full of smoke, smoke coming out from under the roof, and a section of the ceiling glowing red. They broke in through the roof, and got the fire under control with their fogging equipment which eliminated the use of quantities of water which would have caused much more damage.

It was determined that the fire was caused by an electrical short in the heating unit in the store. Mr. Harmer stated that this heater has been going night and day all winter, and was just recently

Intimate Glimpses

Continued from Page 1
brown brute was practically unknown in the State. Now he is a big problem to the hay farmers who grow this important feed crop. He seems to know always where the best fields are, moves there, and takes over.

Hornaday describes him thus: "with a big pouch in the skin of each cheek, a swinish appetite, a set of long claws like burglar's tools on each forefoot, and a most villainous countenance and temper." Nobody, they say, has ever been able to tame or make a pet of a gopher. They don't say that anyone ever tried very hard. The mother gopher cares for her young for only a few weeks before she leaves them to dig their own way in their dark narrow world. Old ones are usually found living alone grimly intent on only one thing—their own survival. The notorious creature does not stop at anything in his path which he can possibly gnaw and claw out of his way. He will chew through telephone and electric cable, undermine walls, culberts and bridges, cut away tree roots, cause fence posts to topple. He does not give a hang for anything except keeping himself alive in his sunless world.

Hornaday says "they are so ill-tempered they even hate each other." Well, that's a trait they share with human gophers. Perhaps this is what happens to creatures who live in dark secret places, completely safe. Me, I don't want to be a burrowing animal. I'll live under the sky and risk whatever madness man and his conquering instinct may do next.

Mr. and Mrs. Harmer were in El Centro when the fire started and planned a leisurely trip home on Tuesday morning. They were called in El Centro by store manager, Ed Rowan, and arrived shortly after everything was under control.

After spending the winter in Alpine, Mrs. Mary Benton Peters and her husband, John, returned to their home in Grinnell, Iowa, this spring. They report a pleasant trip back, visiting along the way and taking 10 days for the trip. Mary says it was nice to see spring come to Iowa. They arrived in time to welcome former Alpiners, Bob and Clara Standen and their grandson, Rodney Hielkema and a Bolivian boy the Standens are now sponsoring. The Standens were on their way to Wisconsin to visit relatives. Mrs. Peters says she is getting the Echo in Iowa thus keeping up with happenings in her winter home.

A party of 22 men met at the Log Cabin Cafe last Monday evening for dinner and to celebrate a Bachelor's Party jointly for Floyd Manker and Dick Mangiarelli. Floyd's bachelor days will end this Saturday when he will marry Doris L. Mangiarelli at the Pacific Beach Woman's Club, Mt. Soledad. Dick celebrated with Floyd as he will marry Ann Williams on June 27th. Sam Mangiarelli, father of Dick and Doris, has many friends in Alpine, and hosted the party.

Mrs. Albert Alder has announced that she will give summer courses for both beginners and advanced students in piano and organ. She is an experienced teacher in classical and in popular music and has taught for several years in La Jolla. Her musical training was received at the New England Conservatory in Boston and later in Paris, France.

Bea LaForce has taken a flying trip to Durango, Colorado, this week to visit friends and to see the Mesa Verde Indian site recently excavated.

In preparing to move from their 15-year residence in Alpine to San Diego, Mr. and Mrs. Ernest Wright ran across a price list of groceries from their store, owned by them many years ago in La Mesa.

Unfortunately, no year is visible on the list, but the prices are quite a conversation piece. Bread 10 cents a loaf, milk 11 cents, deliv-

ered 12 cents, one pound of bacon 32 cents per pound. Times change.

Take a group of giggling girls, eight in number and a brand new twelve-year-old, and you'll complete the scene of a birthday party held at the E. B. Reed's home honoring their eldest daughter, Anita Reed of Alpine Terrace.

Those attending the birthday dinner and slumber party were, Beverly Nichols, Diana Ralston, Lynn Kinikin, Libby Wake, Vicki Hughes, Susan Parsons, Jackie and Carolyn Reed and the honoree and her parents.

Mrs. J. L. McIver, former President of the El Cajon Woman's Club, and the outgoing District Chairman of the California Clubwoman's Magazine, and outgoing Junior Coordinator for the Southern District of Federated Woman's Clubs, was awarded for outstanding work in the promotion of the publication. Mrs. McIver was honored at the recent convention of the Federation in Los Angeles. She is well-known to members of the Alpine Woman's Club and a quite frequent visitor in Alpine.

CREST

By JANE MON DRAGON

Mr. and Mrs. George Wolff of 2170 West Drive returned this week from a two-week trailer vacation at Aqua Caliente Hot Springs in the desert. While they were there, Mrs. John (Cecila) Schuttenhelm, Mrs. Donald ("Tommy") Newman, Mrs. Alta Hart, and Mrs. Charles (Leona) Martin, of the Crest, and Mrs. Art (Eileen) LaViolette, former resident now living in Lakeside, came to visit the Wolffs and spent a picnic day. "Tootsie" Wolff says, "I still have not soaked up enough sunshine to satisfy me, so we are going back again, next week."

Ray Mitchell of La Mesa has bought the Hilltop Grocery, and it is now operating under the new management. Ray Johnson, former owner, says he is going to take a much-delayed vacation, and has no definite plans for the future.

May 10, Sunday, Mother's Day, the Crest Community Church plans to honor the mothers in its congregation. Gifts will be given to each mother attending the morning services, with special awards presented to the oldest mother, the youngest mother, and the mother with the most children present. There will be special music offered, fitting for the occasion.

Mr. and Mrs. John Thompson have sold their home at 1806 Algeria to Mr. and Mrs. Henry Dobbs of Santee. Lillian Barrett of Smith's Realty, Alpine, conducted the transaction in cooperation with the Doonan Realty on the Crest.

Mrs. C. T. Cureton of 217 Scenic Drive, was hostess April 29 at a linen shower given in honor of Deanna Langley Randall, daughter of Mrs. LaVerne Coffman, former Crest resident. The guests were from Crest, Alpine and El Cajon. Deanna was married to Alan Randall on March 27.

Mrs. Beatrice Downs, one of the Crest's oldest and best-known citizens, is confined to her home, 2209 Park Drive, with a severe attack of flu. Her many friends would be welcome to visit, and we all hope she is feeling her own perky self again, soon.

On April 28, Mrs. Charles Martin, Mrs. James Busby and Mrs. Arleigh Fonner of the Crest Ladies Club, played host to 13 other members of the group, at an all-day bridge fest. The guests were first taken to Uncle John's Pancake House, El Cajon Blvd. for brunch, and were then told that they would just have to follow along to a des-

tinuation designated as La Casa de Martin. The Casa turned out to be the former residence of the late Mr. and Mrs. Own Manson, 134 Beech Place, now owned by Mr. and Mrs. Martin. The guests who enjoyed an afternoon of bridge were Mmes. William Cameron, Stephen Dickenson, Harvey Henderson, Hans Hjort, C. E. Penny, Hugh Lally, John Berg, Jack Huntamer, Frank Fransway, Edward Jackson, and Mrs. Marie Cook, Mrs. Alta Hart, and Mrs. Juanita MacDonald.

The Crest Woman's Club is planning a Community Fair to be held at the La Cresta Clubhouse on Saturday, May 23. The all-day affair will feature a flower show (a former annual Woman's Club function sorely missed in recent years), and booths, featuring needlework, home-baked goods, home-made preserves, and many other items of interest and entertainment. Mrs. Donald Newman, president of the Woman's Club, says, "All proceeds from the Fair will go to a fund organized to finance the necessary repair and renovation of the clubhouse, to insure its continued service to the Crest Community, as the one place here in which we can hold all sizeable public and organizational function." For further information, contact Mrs. Newman at 444-3035.

DEERHORN VALLEY

By ROY WALLIN

The beginning of this week seemed more "winter-like" than the weather's been all this past winter!

It was gratifying to see an attendance of well over thirty neighbors at last Friday's Civic Club meeting . . . good seeing the Wren's and Hattie and John Dolejsi whom we haven't seen in some time. Mr. Richard Allen of Spring Valley, the speaker, gave a very fine presentation on "shirt-sleeve First Aid for the layman which I believe bears repeating here; namely, in case of an accident or emergency, immediately do "nothing" (hesitate, think, analyze the situation) and then take orderly and deliberate action. In order of importance, check bleeding, usually by direct pressure on the wound; then breathing applying artificial respiration by any method you know (if you don't remember one, make one up that causes inhalation and exhalation by the victim); check on poison by physical evidence, appearance of the lips, etc., and generally speaking, dilute and wash out with milk or water, and call the doctor or hospital giving the name of the suspected poison, if known; and finally shock, the major cause of fatalities, evidenced by a state similar to fainting where you should lay the victim flat, cover both under and over to maintain body temperature, and as to raising the head or the feet, remember, "Face red, raise head—Face pale, raise tail!" With regards to burns, Mr. Allen recommended dry dressings and forget the butter or oil. With regard to rattler bites, they're very rarely fatal so remain calm, put a rubber band a few inches above the bite, use an ice-pack on the bite, and see a doctor or head for the hospital. We doubly appreciated Mr. Allen's appearance as he cancelled other engagements to appear at our meeting, missed his daughter's performance at Billy Graham's appearance at Balboa Bowl, and missed visiting with his brother who was aboard the USS General Mann on his way to his next duty station in the Far East visiting overnight only.

With regard to the pool tournament of the "Sons of Rest," we witnessed the coronations and de-

thronings of Jim Hicks and Roy Meyers, but Jerry McMullen still remain "King o' the Mountain"!

Fortune walked hand in hand with misfortune early last Sunday morning when Herb Evans and Annie Erickson, of Monte Robles Acres, swerved to the side of the road on Highway 94 on the curves past Oslar's Shady Oaks, and turned his pick-up with the camper on it over several times. The pick-up doesn't look so good, but Herb and Annie were on their place Sunday looking hale and hearty, and none the worse for wear!

We read about juvenile delinquency and "wild" college students and gatherings, but as nice a group of young folk you couldn't hope to meet as the group at Dehorn Lodge last Saturday evening celebrating Carol McLeod's twenty-first birthday. The group of thirty some odd are students at San Diego State College and belong to the Lutheran Students Association. Included in the group were two exchange students from Ghana and Rhodesia in Africa. In all fairness too much stress and sensationalism is placed on the few "bad apples," while the overwhelming majority of our young adults' activities go unheralded and un-noted!

Talking about birthdays, Joe Valle of "Crow-Valle Ranch" and Chula Vista celebrated his birthday also last Saturday . . . Happy Birthday, Joe!

At their meeting that evening the young people had a Bible drill, a check on how well they can locate books and chapters of the Bible.

 publicized it in religious campaigns, and Anna wrote letters to many people, including members of Congress, asking their help.

On the third anniversary of Mrs. Jarvis' death the Grafton church held a Mother's Day service honoring her for her good works and informing the people of Anna's aims. For distribution to the children Anna sent 500 white carnations, chosen because they were her mother's favorite. White ones were first chosen as symbols of "sweetness, purity and endurance." Later they were worn for Mothers who had died, red one for those living. By 1912 the Day had spread to every state and several foreign countries.

From a religious service the celebration spread to gifts, cards and visits. In 1934 James A. Farley, Postmaster General, ordered a 3c stamp made featuring Whistler's Mother. Anna told Farley she objected to the stamp issue, though the public welcomed the stamp, and his department apologized to her. She bitterly resented and fought the commercial display that Mother's Day had become, and withdrew from public life. Through the years she lost her sister and her property and became almost blind. In 1944 friends provided care for her in a West Chester, Pa. sanitarium where she died at the age of 84.

torium last Saturday for the benefit of the Cancer Fund. A large group supported this worthwhile project, and those responsible for same wish to thank all those who helped to make it a success.

After church last Sunday at the Hunter Community Church in Campo, a potluck luncheon was held, and after that there was an old fashioned hymn community songfest, and instrumental and vocal presentation. Rev. Troy Gaines invited the public, as well as representatives from other churches. Such a lovely way to spend the day.

Mrs. Betty Wright of Campo announces the marriage of her daughter, Pamela Wright McGuffie to Dale Ison of Campo. They were married in Yuma last Saturday. Dale is the son of Mr. and Mrs. Lonnie Ison of Rancho del Campo. He is in the U. S. Air Force and is stationed in Amarilla, Texas, where the young couple will make their home for the present. Both Dale and Pamela attended Mt. Empire High School. About 100 people attended a reception for them in the Stonehouse at Campo on Saturday evening. The room was appropriately decorated in white, and a beautifully decorated tiered cake centered the serving table, together with a large punch bowl. Many beautiful and useful gifts were presented to the couple at the reception.

A group of Homemaker Club members drove to Hemet last Sat. to see the Ramona Pageant, and report a wonderful time, although the weather was cloudy when they left. After the pageant they enjoyed a delicious Italian dinner in Hemet, and arrived home at 10 p.m. Those who made the trip were Babe Johnson, Peggy Fisher, Daisy Del Vechio, Phoebe Thompson and Evelyn Fors.

ALPINE GARDENER

By JEAN McCULLOUGH

While the wild flowers are still at the height of their beauty, keep in mind the Julian Wildflower Show which is arranged by the Julian Women's Club and is held from May 9th to 24th. It is really a worthwhile show. You would never believe there are so many lovely native flowers until your attention is drawn to them by seeing them arranged so artistically. It brings it forcefully to mind that we are gradually going to lose all of this beauty through the bulldozer blade unless there is concerted effort to preserve them.

Another beautiful native flower show to be seen is up at the Rancho Santa Ana Botanic Gardens near Claremont where they have all the native flowers more or less in their native state. Of course, they have provided ideal conditions for their growth. It would be well worth a trip to see these gardens.

The beauty of a native garden is that once you have it established it takes a minimum amount of care, which is what we are all looking for, isn't it?

I heard that the Ocotilla is putting on a fine show down on the dessert. These flowers are worth seeing, too. So hop in your car and start going and you are sure to see a wild flower show whether you go north or east.

Some of the cultivated flowers are coming into bloom now, too. The Iris especially. I was fortunate enough to see the Iris Show in San Diego last Saturday, and those flowers were really something. Everyone was ohing and aching over them.

One of the Iris growers has his place of business at Valley Center, and another is at Descanso

and can eat its own weight in a day, in his garden. Mr. Frank Gute, retired Captain with the San Diego Fire Department, cautioned the members that fire season is here, requested a community clean-up of fire hazards from inside the homes out so as to fully cooperate with the Forestry Service, and stated that he would have literature on fire hazards and regulations for distribution to the membership at the next meeting.

Following the business portion of the meeting, the President introduced the speaker for the evening, Mr. Richard Allen of Spring Valley. Mr. Allen has been a first aider for many years in various fire departments. Mr. Allen spoke on basic aspects of First Aid with regard to definitions, basic procedures, touching on bleeding, breathing, poisons, and shock, as well as answering questions from the audience on resuscitation, heat attack, and snake bites.

The door prize, a set of steak knives was won by Mrs. R. Wallin. Coffee and sandwiches were served by the hosts for the evening, Mr. and Mrs. J. Vallee of Chula Vista.

School Busses Are Safe Transportation

California's 9343 school buses operated an estimate 118,000,000 miles in 1963, transporting nearly one million pupils every day—without a single student death, Highway Patrol Commissioner Bradford M. Crittenden said.

"This record once again meant that school buses provide the safest ride in California," the commissioner pointed out. "The Patrol inspects every California school bus at least once a year to assure maintenance of proper safety standards," he said. "Patrol officers also conduct written and behind-the-wheel examinations for school bus driver applicants."

During 1963 there were 1016 school bus accidents resulting in 400 injuries—166 of them pupils—and two deaths, both persons in other vehicles involved in collisions with buses. The fatality rate for school bus accidents thus was 1.69 per 100 million vehicle miles, far below the 5.2 rate for all vehicles.

A total of 1763 motorists were cited for passing a stopped school bus displaying dual flashing red lights. Eight accidents were attributed to this violation, the commissioner said.

COKE'S KITCHEN

"Ask, and you shall receive"—last week a request for new recipes and this week a complete newspaper entitled, "San Luis Obispo Telegram Tribune," with an album of favorite recipes mailed to Coke's Kitchen from Mr. Foster Kellogg, an Echo reader. It is always fun to hear from our northern friends.

CARROT CAKE

2 cups flour
2 tsp. baking soda
2 tsp. cinnamon
½ tsp. salt
3 eggs
¾ cup oil
¾ cup buttermilk
2 cups sugar
2 tsp. vanilla
1 small can crushed pineapple, well drained
2 cups grated carrots
3 ½ oz. can or pkg. coconut

Sift dry ingredients together. Beat egg, add oil, buttermilk, sugar and vanilla. Mix together thoroughly. Add to dry ingredients, mixing well. Mix in pineapple, carrots, nuts and coconut. Pour into lightly greased and floured large pyrex or 12"x7½" pan. Bake at 350 degrees for 55 minutes or until done. Pour following frosting over hot cake.

☆☆☆

BUTTERMILK FROSTING

1 cup sugar
½ tsp. soda
½ cup buttermilk
1 cube butter
1 T white corn syrup
1 tsp. vanilla
Mix sugar, soda, buttermilk, butter, and corn syrup in sauce pan. Bring to boil and boil five minutes. Remove from heat and add vanilla. Pour over hot cake.

☆☆☆

PINEAPPLE-CRUMB SQUARES

1 cup graham cracker crumbs
2 T granulated sugar
¼ cup melted butter or oleo
1 pkg. vanilla pudding
1 ¼ cups water
½ cup syrup from pineapple
½ cup drained canned crushed pineapple
Method: Start heating oven to 375 degrees. Combine first three ingredients; firmly press two-thirds of mixture into bottom of 9"x5" loaf pan. Bake 5 minutes, cool. Meanwhile, back at the ranch, in a sauce pan, combine pudding, water, pineapple syrup. Cook over medium heat, stirring, until mixture comes to a full boil. Add pineapple, cool five minutes, stirring once or twice. Pour over crumbs in pan. Sprinkle reserved crumbs over top. Refrigerate several hours or until firm. Serve cut into squares, with sweetened whipped cream if desired.

CRACKER PIE

3 egg whites
1 cup sugar
1 tsp. vanilla
1 tsp. baking powder
14 soda crackers (coarsely crumbled)
¾ cup slivered walnuts
1 cup heavy cream
Beat egg whites until foamy. Gradually add sugar, beating until stiff. Combine crackers, nuts and baking powder. Fold into egg mixture along with vanilla. Spread in buttered 9 inch pie pan. Bake 350 degrees for about 45 minutes or until dry. Cool and spread with sweetened whipped cream. Refrigerate at least two hours before serving.

P.S. Thanks a million for the paper—Uncle Foster.

Handy Household Hint

(For Harried Homemakers)

To do a good sandpapering job on rounded surfaces (concave or convex), back up your sandpaper with a sponge. This way, you can apply firm pressure, and the sponge will automatically adjust itself to the contour of the surface. (Easier on the hands, too).

☆☆☆

There is no need to mess up a sieve and bowl when you want to drain and measure liquid from canned foods. Just puncture the top of the can with a pointed opener and pour the liquid into a measuring cup. You can then open the can as usual with your regular opener. It is fast, and you have only one utensil to wash instead of three.

☆☆☆

To stop meringue from dragging along with the knife when you are cutting it, sift granulated sugar over the meringue just before you brown it in the oven. It comes out easy to cut cleanly, and pretty, too.

☆☆☆

Heat nuts and fruits in the oven and then coat them with flour, before adding them to your batter. They will not sink to the bottom of your cakes and you will be spared, "Hey, mom, there's nothin' it!"

☆☆☆

Do eggs always break when you hard-cook them? Puncture the round end with a pin, and let the air escape. (It is air expanding which breaks the shells). Lower the eggs into the water with a spoon, also, never just drop them.

Mrs. Angelina Cruz of Lemon Grove, was the guest last week, of her daughter and son-in-law, Mr. and Mrs. J. R. Clouse of West Noakes St.

Mrs. Rita Batson, former canyonite, and her three grandchildren were guests in the Carl Cumb home through the week-end. On Sunday Mrs. Neve Riveria, another former canyonite, joined the group.

The George Buell family and Mrs. Martha Decker are sharing a guest in their respective homes this week. The guest being Mrs. Esther Button from Seal Beach, and both George Buell's and Martha Deck's aunt.

The Harold Hardy family showed up at the Bill Pipes all set for both families to spend the week-end camping on the Colorado. The wind and weather was so bad that the Hardys ended up spending the weekend at the Pipes' home, and everyone had a rousing time.

Miss Jane Fordyce of Japatul, was the overnight guest of Joan Boston, Monday. The girls spent the evening at the Billy Graham Crusade.

Bob Cole was a visitor in the Canyon on Saturday, his first leave since he enlisted in the Marine Corps, 11 weeks ago. He is at Camp Pendleton at the present time, but in two weeks will return to MCRD where he will go to sea school for approximately a month, after which he will be classed as a security guard. After this is all over, he doesn't know just where he will be located.

Marsha Buttrell was the guest of the Bob Heilig family at the Rio Hardy, on the weekend.

The Hettinger family was at the Rio Hardy again this last week-end. Tommy had Larry Benson as his guest. During the course of the weekend Mrs. Marlene Galligar and family, along with a friend Jane, and Mrs. Ida Duncan showed up in the area, and Ida proceeded to give everyone a fishing lesson by landing an eight-pound bass.

Louise Hageman Gray with her two boys, Dennis and Billy, have been staying with Mrs. Marie Newton and family for the past few days. Louise has been helping "grandma," who has been ill with "almost" bronchial pneumonia.

Patrick Scarbrough, former canyonite, is a patient in Grossmont Hospital, where he underwent ear surgery and had tonsils and adenoids removed. At last report Pat was coming along fine.

Little Miss Cynthia Rae Harris delighted her parents, Mr. and Mrs. Roy Harris, sister, Renne, and brother, Guy, by arriving in this world Wednesday, and joining them at home on Friday. Cynthia weighed 6 lbs. 15 oz., was 20½ inches long, and was born with a lot of pretty brown hair.

Mr. Pat Presley and sons, Vincie, Howard, and Stan, spent Sunday in Brawley visiting Uncle "Slim" S. D. Presley.

The Ralph McGuffies of Campo, are proud to announce that they presented "Grandma" T e n n e y Scott with a new granddaughter. Shawn Marie was born at 12:27 a.m., Saturday, May 2. She weighed in at 6 lbs. 6½ oz. and was 19 inches long. Mother, Eva Nell, and new daughter doing fine at the

Scott home on Silverbrook Drive. They will remain here for a few more days and then return home to Campo.

Bob Sanders of Silverbrook Dr., had his (we won't tell) birthday on Friday, May 1. Saturday evening, the Sanders family took off for San Diego where they have a little friend by the name of Julie Pasnack. Julie's birthday fell on Thursday, April 30, so she and Bob did it up right and celebrated together.

Jackie Hettinger was Marki Rodriguez' birthday party guest on Sunday. Marki was seven years old and lives at the Rio Hardy. All the guests were much impressed with the colorful decorations. The traditional pinata was made of crepe paper, and resembled a large layered birthday cake, candles and all. A buffet dinner was served.

The Carpenters, Glenn, Cory, and Bettye, visited Ken at Camp Matthews on Sunday. Ken says he's having a ball—you will never believe it, but he's on mess duty.

Lorna Ferguson and Jeannie with Frances Barta (Lorna's sister) spent part of the afternoon Sunday visiting with Mike Schafer at MCRD. Mike graduated on Thursday, May 7 and will go on to Camp Pendleton where more training awaits him.

Virgie, Barbara, and Patricia Presley accompanied Mrs. Norman Foster and daughter, Kathy, on a trip to Imperial Beach, Sunday, and from there on over to the Strand where the beautiful Pacific put on a show for them—huge, rolling waves and all.

Mickey Wallace is the proud owner of two very young pigeons, which he is itching to teach to fly, if this weather would clear up and permit him to. In the meantime, his mother is about to have apoplexy, because Mickey insists on keeping the pigeons in a box in the house, because as he puts it, "It is just too cold for them anywhere else."

Welcome to our community, Mr. and Mrs. John Handy, who have purchased the home at 109 E. Noakes, and Mr. and Mrs. Hardy Campbell, who have also purchased a home at 105 Almyra St.

work-at-home schemes, and the like.

Mr. Hall noted that one of the stiffest prison terms ever administered to a medical "con man" was given to Roy Wright DeWelles of Pass Christian, Miss., who made an estimated \$1.5 million peddling a worthless "oxygen therapy" device known as Detoxacolon.

DeWelles was arrested after sending out 10,000 postal cards promoting the quack scheme.

In another recent case at San Francisco, Edward H. Johnson, doing business as Comstock Land Company and E. H. Johnston Company, was sentenced to six months in prison, followed by four and one-half year probation, for mail fraud. Johnson was also ordered to make restitution of \$60,000 to purchasers of worthless desert land near Elko, Nevada. Postal inspectors accounted for nearly fifty investors who had signed contracts totaling \$250,000 in the belief that the famous Nevada Comstock Ranch was involved.

"It should be emphasized," Postmaster Hall added, "that most businesses doing business by mail are reputable firms, including many that may not be familiar to the prospective purchaser. However, if there is any doubt, it is best to get information from reliable sources, such as the Better Business Bureau. In cases where there is a genuine basis for suspicion of fraud, we would like to have prompt information from the public in my office—and I will see that appropriate action is taken."

'RD Symptom Alert' Program Underway

One out of four adult Americans has a troublesome cough.

One out of eight is short of breath.

Of more than 400,000,000 cases of acute illness in 1962, about six out of 10 were caused by Respiratory Diseases.

Two respiratory diseases—the common cold and influenza—headed the list of acute illness in the United States last year.

These, and other facts, are being brought to the community's attention, this month and next, during "RD Symptom Alert"—a health education service of the Tuberculosis and Health Association of San Diego County.

Harvey O. Randel, M.D., chairman for the "Alert" said tuberculosis and health associations are signaling a nationwide SOS—financed by Christmas Seal contributions—to more than 15,000,000 Americans who cough excessively or are short of breath.

"RD Symptoms Alert," Randel said, "is designed to warn people against chronic cough and shortness of breath as common symptoms of respiratory diseases.

"In the past 10 years in California, chronic respiratory diseases rose to eighth place among the 10 leading causes of death," he said.

Randel added that current estimates indicate 25,000 Californians are permanently and totally disabled by respiratory diseases.

"Short of breath? Cough too much? Don't take chances with respiratory disease. See your doctor!" the association urges.
