WILL MOVE INTO NEW SCHOOL DURING SPRING VACATION

Tuesday the new Alpine Union school was formally accepted when officials, including Supt. Frank Brown and Pres. Jerry Klipp of the school board, the contractor Rex Foster, the architect and others inspected it and approved

the fine new structures.

Later Brown and Klipp departed for L.A. to get final approval on the new furniture and other equipment that will take two to three weeks to be delivered and installed.

This means that the move for grades 4 to 8 and the kindergarten will be moved into the new plant during spring vacation, Mar. 30- April 6, occupying the six rooms. The lower grades will remain in the old school. The cafeteria will of course be in the fine new quarters along with offices and the splendid auditorium and other facilities.

The grounds, landscaping and numerous finishing touches are fast being completed to make this one of the state's finest new schools, one which is already outgrown, and which the people and children are now so proud of. It marks a real milestone in Alpine's progress.

THE GOAL OF THE SUN

1. TO PROMOTE A WATER SYSTEM FOR THIS AREA THAT WILL ALLOW IT TO DEVELOP AS A HIGH CLASS RESIDENTIAL AND AGRICULTURAL COMMUNITY.

2. TO OBTAIN OUR RIGHTFUL SHARE OF COUNTY POLICE PROTECTION.

3. TO PROMOTE A HOTEL AND COMPLETE FACILITIES TO SERVE THE TOURIST TRADE.

4. THE ESTABLISHMENT OF A BANK TO SERVE THE ENTIRE MOUNTAIN EMPIRE.

5. TO INTEREST SOMEONE IN BUILDING A SANITARIUM HERE TO SHARE IN OUR WONDERFUL CLIMATE.

6. TO STIMULATE COMMUNITY PLANNING IN TRAFFIC, ROADS, ZONING, STREET NUMBERING, ETC., SO ALPINE MAY LOSE ITS RURAL SHORTCOMINGS.

WATER, TODAY OR TOMORROW?

We have written many times about a water system for Alpine. We have pointed out that if we had irrigation this area would shortly outstrip other places in this county where avocados, citrus and sub-tropical fruits yield a fine income.

Now we would like to see an Alpine Water committee formed to work on this long-range plan to bring water here. It might be from the Colorado, or the Feather river, or from the mighty Columbia-- or from a dam above here-- see issue of Jan., 15th.

The Sun will work toward this end, making this our prime objective, as outlined in the next column. We recently sent nearly \$1,500. to the March of Dimes-- all out of Alpine-- which could be duplicated by a few events here to raise money for this water committee to buy a preliminary survey and recommendations.

We not only need water to spark Alpine's development, but we need it today to save residents many thousands of dollars in drilling into granite and getting no water, or scanty flows. Such a system would in no wise harm the drillers' business, as they will always be developing

IF YOU'RE IN BUSINESS, COME

Active folks in mercantile or professional life of Alpine are urged to be present at the regular session of the new Alpine better Business association on Monday, March 2, from 12 to 1, at Bailey's cafe. Al Hinkle, chairman, invites everyone active in the field to attend. Order what you want for lunch, pay your own check. No dues or charges.

DAVISES ARE ELATED

An example of the splendid opportunities available to American youth is revealed in the recent appointment of Miss Norma Jean Smith, attractive young niece of Lieut. and Mrs. Paul C. Davis, U.S.N. ret. Peutz Valley, to a position in the Foreign Service of the U.S. under the State Department.

Miss Smith came to S.D. County four

years ago upon graduation from school in Tahlequah, Okla. and has since been employed in various secretarial positions in S.D. After receiving her appointment she flew to Washington, D.C. for a short indoctrination period prior to assignment to an overseas post.

As award for securing most members for PTA, seven cars of school children spent a day at the S.D. Zoo, driven by Mes. Palmer, Randazzo, Ferguson, Shepherd, Spires & Bostrom, with teacher, Mrs. Wright.

Clarke Irvine spent a happy (?) New Year-- in bed-- having suffered a painful case of food poisoning the day before which kept him in bed a-fasting for five days.

Roger Moore is mourning the passing of his brother, Walter, 69, retired rancher who was buried last Wednesday from Paris Mortuary, El Cajon.

BUTLER BRINGS IN DEEP ONE

Ken Hittle, head of Butler Drilling Co., reveals that he has just hit a water gusher at over 840 feet on the prairie near Gillespie Field which is yielding 300 gallons a minute. The Fletchers may now start a 1000-home development. 'There's water everywhere, but you just have to go deep enough for it' states Hittle, who is busy drilling in many parts of the county.

Mr. and Mrs. Donald L. White and son Donny stopped off to visit the Irvines last week on their way to Astoria. Nan visited her Aunt Lil Goulding in Phoenix and reports her feeling fine. The Whites moved from Alpine to Indiana where Nan stayed with her family while Don was transferred to Guam.

Mt. Empire Men's Club had a dinner for their charter members Thursday Feb. 19th at the Town Hall. Thirty three attended, and a movie was shown. March meeting will be election of officers.

Margaret Fulk entertained the Gammas last week at her apartment, with a jewel pin ceremony for three who had not yet received their symbols; Grace Buchmiller, Margry Waddel and Eleanor Kidder.

I WANT TO SING

I want to sing something and sing I will,
Of the beautiful spirit of vale and hill,
Of the glad refrain of murmuring brooks
Of towering wonders wherever I look.

Where dreams come true as discords die
I want to sing something and this is my try.

TRAFFIC KILLER IS MURDERER

The highway patrol, through its successful special enforcement program has proved that traffic accidents are caused by law breakers. This means then, that the 3600 men, women and children who died last year in auto crashes, were victims of practical murderers.

This horrible slaughter could be decreased and kept down if the state had enough men to enforce the code. In the Sacramento area accidents were reduced almost 50%, other places nearly as much. Let's have more enforcement!

Mr. and Mrs. V. Hogan and daughter of West L.A., were sorry to leave Alpine as their stay was a pleasant one at Tappy's Motel. The bungalows are so comfortable and homey and the yards so nicely kept up. He is an engineer, just here to enjoy a few days vacation.

Care of the Body**HOW MUCH SLEEP DO I NEED?**

Probably if you could tell me how much energy you have used today or how fast you can recuperate, I could more exactly tell you how many hours sleep you require.

If you do all mental and eye gymnastics all day, you are wearing out a nervous system which takes longer to rebuild and consequently more rest and sleep is needed. A man with a good nervous system who works physically can get along on less sleep. But a man with a nervous system that is driving a physical body beyond physical endurance will some day have to rest—and maybe a long time at a stretch.

Go to bed and get at least two hours sleep before midnight. Do not try to work when you are tired as it is a double drain on the nervous system. You wouldn't expect a first class job from a run down tired worker would you? Why expect it from yourself.

Eight hours is considered the average amount needed. But it varies with the type of work and the kind of air, whether it be fresh outdoor mountain air or the stuffy air of the city filled with carbon monoxide. It has been proved that noise is disturbing to your body even when asleep.

There is nothing that can take the place of sleep. If you haven't had enough sleep in the past week, do not resort to drugs, tonics, stimulants, etc., but take a day off and go to bed. I heard a wise old Englishman say one time that when he was out late of an evening he would always stay in bed until noon of the next day.

HINDS BOY INJURED

Jimmy Hinds, son of Mr. and Mrs. Homer Hinks, fell off his boke, suffered a concussion which put him in the La Mesa hospital for four days. He is now home and out of danger his mother is glad to report.

Mrs. Ruth Walker has been having quite a siege of the flu. Seems like she just can't get rid of the little bug, but for the past few days has been feeling much better.

The Arthur Shermans leave for Delhi, near Modesto, the end of March. Alpine loses a civic-minded family, as they have been workers in many activities and in founding and directing the now famed square dancers, the Sassy Set.

Art will work in a dairy, hoping to eventually manage it. Lois and Mrs. Sherman will join him when school is out. Larry will be stationed in Japan for two more years. The McAllisters, El Cajon, bought the Sherman place on Alpine Heights Rd. They have three children.

Jack Blankenship is busy these days building some additions onto his home, bulldozing and everything. He is making some nice improvements.

MRS. HUCKABY DIES IN S.D.

Funeral services were held Saturday morning from Johnson-Saum Knobel mortuary, El Cajon for Blanche D. Huckaby, 75, county resident for 22 years who came to Alpine a year ago. She died in a S.D. rest home. Survivors, besides her widower, Mitchell E: three daughters including Mrs. Agnes Corey, Chula Vista; four sons, including Charles Bryant, El Cajon, 10 grandchildren and nine great-grandchildren.

YOUTH CENTER BUILDING UP

Last Saturday the fellows working on the Youth center building made it look like something, with walls going up, and other construction activities in full force. This will make a fine head-quarters for the young people of the area when it is ready in a few weeks. It will have rest rooms, kitchen and other appointments, and gradually the playground and other facilities will be realized.

Dorothy McDonald received a phone call in the middle of the night last week to come to the bedside of her mother, Mrs. Etta Mae Washburn, visiting in Long Beach. She had suffered a stomach hemorrhage. Mrs. Washburn has been a resident of Alpine for many years, residing at Darnell's cottages, is now with her daughter Dorothy.

PLAY FOR WOMAN'S CLUB

Tuesday the Woman's club is to see a three act play put on by the Alpine Players, sponsored by Mrs. Douglas Walker. It is The Family Album with Jim Blackton as narrator and 20 other members. Jean Kern, Elizabeth Ball and Bea La Force have gone all out to find costumes to fit the 1880 setting and Bea reports a marvelous selection.

Players are Mr. and Mrs. Sturdivant, Frank Brown, Sara Magnussen, Ruth Rooklidge and two daughters, Margaret Fulk and daughter, Verlie Boyd and son, Manuel Maddox, Mrs. Jane Dunn, Vince Ballinger, Jean Kern, Bea La Force, Dr. Larson and others still to be cast.

The Players meet at the Woman's club Sunday night at 8 to elect officers for the coming year. All are urged to participate.

WALTERS ON COUNTY HEALTH BODY

The new S.D. county health board, created at the consolidation of city and county health bodies, has just named Judge E.A. Walters, as representative-at-large for unincorporated areas. He will have much to recommend along these lines from the community for the betterment and protection of public health.

The judge served 10 years on the Superior bench in Idaho, during a part of which time he sat on the Supreme bench of the state. He was tendered the nomination for governor on the Republican ticket, equivalent to election, which was declined. He reentered law practice, engaged in banking, being president of one and director with two other banks, in addition being president of a building and loan association. Twenty years ago he disposed of his interests in Idaho, came to California, has resided in Alpine for seven years. He has taken a great interest in civic matters, more recently serving as chairman of the sanitation district committee of the chamber of commerce.

"Now remember" said the doctor, "use lots of fruit, and be sure to eat the skins as they are rich in vitamins and minerals. What, by the way, is your favorite fruit?"
The patient looked gloomy. "Coconut" he replied.

WARN OF FIRE DANGERS

The U.S. and state forestry services have declared this area a prime fire hazard and Alpine fire department has cancelled all outstanding burning permits.

'Everyone should exercise extreme precaution' states Commissioner Henry J. McKie, Jr., 'especially with incinerators, which should be checked for openings and spark arresters'. He advises that no fire should be left unattended, and 'be sure that it is completely extinguished when done burning.'

Elizabeth Ball is happy these days now that the roof on her new house went on Saturday. She says 'it's not a doll house or a little pent house, but a real grown-up house'. (We'll have to get a snapshot of it for next issue!)

DESCANSO SCHOOL FIELD DAY

March 21 will seem like Christmas for Descanso students. The ever-growing public interest in educational betterment will take tangible form on Saturday the 21, when volunteers will meet at the school grounds to perform some badly needed chores, best of all to install some splendid play facilities just purchased. Faced with the choice imposed by limited funds the board wisely decided for equipment, counting on volunteers to install it instead of curtailing purchases to pay labor.

Descansans are proud of a community spirit to justify such a choice. PTA ladies will provide lunch.

SURPRISE FOR HENRY NELSON

Henry Nelson was surprised by a visit from his sister and her husband, W.C. Moody, hotelman of Spokane, where they live in a nice penthouse atop the hotel. RUMMAGE SALE FOR GIRL SCOUT

On the 18th of March the Gamma Gamma girls are holding a rummage sale in San Diego to raise money for their philanthropic projects. One of their main objectives is to help some deserving Alpine Girl Scout go to camp this summer. Anyone interested in giving anything that could be sold for this cause please contact the sorority president, Ruth Rookledge, H4-2180, Grace Buchmiller, H4-2382 or Mineola McGee, H4-2933. Any one of these girls will be happy to pick up your old clothing or other items for the rummage sale.

Members of Pilgrim Fellowship enjoyed a delightful evening at the Johnny Bates, winding up the business session with recreation and refreshments.

Helena Baroness has returned from Hollywood, plans to spend the early summer here having rented Dorothy McDonald's guest house, South Grade Road.

SHREVE REOPENS RUTH'S

One of Hiway 80's nicest cafes, formerly Ruth's Mt. View Inn, north side of 80 just below Flinn Springs county park, is open again. It looks like this time permanently as it was recently purchased by Don Shreve, of S.D. He is now open seven days a week from 5 to 9, and Saturday and Sunday from noon till 9.

His wife Jean, and his mother, Mabel Childers, from Kentucky--she's the cook-- are running this lovely place, and have an attractive new menu. The Shreves have one son, Jimmie, 16, and hail from Hamilton, Ohio. They also lived in L.A. Soon they will move into their house beside the cafe. They employ two assistants during the week-ends: Dorothy Englehardt and Alene Brevitz. They are catering to parties and special meetings, says Don, and everyone wishes them success with this attractive spot.

Paul and Claude Bailey have enrolled in the famous Dale Carnegie course at the U.S. Grant hotel, and are now studying all about public speaking, personality and the many other angles of personal and business development that this course presents. Claude treasures an autographed book by Carnegie. Yes, the parents are mighty proud of the boys' ambitions.

Dr. Roger Larson, Community church, is back from a ministerial conference in Berkeley. He was gone nearly a week, was agreeably affected by the speed of the building of the new edifice.

Dear Editor Irvine: I kept forgetting to subscribe, so here's \$2 for The Sun. We like it very much and we think you are doing a good job... give us more of the twin's pictures, we are all interested in their growth. We send our copy to India to a relative. -May Fooks.

Sure Thing

*Does destiny really shape our ends?
It's one of life's profoundest riddles?
But there's certainly no question, friends,
That bread and potatoes shape our middles!*

He who whispers in a well that he has something nice to sell will not get as many dollars as he who finds a tree and hollers.

"How's business?" I asked the old scissors grinder.

"Fine!" he replied. "I never saw things so dull!"

ALPINE HAS INVENTOR

John Romaine, So. Grade Rd., retired oil driller who works at a lot of trades around here, has just completed a nice fence at Sunnyslope Ranch for the Irvines-- to keep the twins and Cynthia in off the highway.

John has invented a "gophergo", hooks up his vacuum cleaner to a tub of burning sulphur fumes, sticks the blower into a new gopher hole with 100% casualty! "It is sure death to the young ones" says John.
