**THREE WRECKS AT BIG DIP**

Another trio of accidents on two lane Highway 80 between El Cajon and Alpine, at the big dip below town, again prove the urgency of a 4-lane route.

Saturday F.J. Adcock, BTC, USN, in a new 55 Pontiac with his wife, son Darrel, 9, and daughter Sandra, 2, pulling a large New Moon trailer, overturned the trailer and went over the steep bank when a weaving

**ALPINE SUN ON NEW RADIO**

Every Monday at 8 p.m. Clarke Irvine, editor of the Alpine Sun, is presenting a newsy 15 minute program and interview over KBAB (910) the new El Cajon station operated by Hubert Babcock. Having heard that Irvine had been on the air for several years with a travel talk and news broadcasts in Honolulu and Los Angeles, Leah McMahon secured him for Alpine Sunbeams, which was heard by many on its first presentation May 23. Irvine has lined up a number of interesting Alpiners for coming programs, invites news and comments from listeners. Bert Fuller, WW2, POW, was first interviewee.

**LANDHOLM WEDDING TOMORROW**

Saturday at 1 p.m. in Community Church, Larry Landholm will be married to Betty Akin, of El Cajon, a native of L.A. Larry is from Omaha. His parents, Mr. and Mrs. Jess Landholm, two daughters and another son will be here from Fremont, Nebr., for the ceremony. Betty's parents and other relatives will come here from L.A. and E.C. Larry, popular owner of the Chevron station, will drive with his bride on their honeymoon to an undisclosed destination.

**EDDY LIKES HOUSE NUMBERS**

A cordial note from Arthur C. Eddy, county assessor, shows just how much the civic center appreciates Alpine's numbering system which is now in effect:

'Dear Clarke: Your paper and community are certainly to be commended on your looking ahead to street names and house numbers for your entire area. The house numbers are of special benefit to all county offices and especially to our own office because of the aid in locating properties. It also shows that the community is looking ahead to orderly and necessary development where it is an area that is much sought after by out of state people.'

2  
**SHOT FELLS HIGH WIRE**  
 Alpine firemen made a fast run to stop a potential blaze when a high voltage wire near 1952 Tavern Road, severed by a bullet, hit the ground and burst into flame. Electric powermen said the wire was cut by a bullet, probably fired by some youngster using birds on the wire as a target.

'That's an easy way to kill or maim someone' a spokesman declared. 'parents whose boys have rifles, should so warn them'.

**Editorial**   
**YOU CAN'T STOP PROGRESS**  
 Human nature is a peculiar phase of life.

Some are violently opposed to growth, progress, improvement. You see it in Alpine where some oppose the use of house numbers. 'We're not big enough yet' say some. Others wail that they have to use rural box numbers for mail instead of house numbers.

Until Alpine grows and the post-office decides on mounted delivery, using the new numbers, we must continue with rural or PO box numbers. It may be slightly inconvenient for some, for a time, but in the end it will work out fine. We have received numerous compliments on this Sun project.

If those who are opposed to progress were told they had to go back to cranking their car, or to carbide lamps, they would be the first to kick! Who doesn't enjoy the fine freeways of today? Before non-skid treads we had to stop, get out and put on chains-- that was the law, too.

San diego growth has hit the ocean and is rebounding. That stimulated El Cajon's phenomenal growth and improvement. We are in line for the same.

In the next five years you will see more growth from El Cajon to Alpine than you saw in the past decade! In Alpine, during the 6 1/2 years I have been back, we saw many improvements: the hardware building, Empire Market, post-office, three new churches, a half million dollar school, a sewer system, fire station, dozens of new homes, many new roads, and today the Launderette, Mausoleum, and Shadyrock Ranch, with many others projected.

House numbering is just a small phase of progress, a precursor of thoughtful community planning, zoning, safety and comfort. The birth of nearly everything in life means some pain and labor but who wants to give up being born just because it's a bit of trouble? -CF

**FIESTA DREW HUNDREDS**  
 Fr. A. Geimer of St. Philomena Catholic church reports that the annual fiesta was a great success, due to community cooperation. The parade Sunday was a colorful one with many riders and others in line of march. Meals served by the ladies were well patronized. The various carnival events were greatly enjoyed by the small fry. It all aided the building fund.

### START HAM RADIO CLUB

Would you like to become a brass-pounder? One who knows his Morse code and learns to talk with ham operators the world around?

Then you have a chance, for Alpine needs more radio amateurs for communications in case of national emergency, says D.C. Deskins, of DeWitt Terrace who, with Haakon Magnussen, jr., are starting a club.

'Along with the great service a ham may render his country, he or she derives the fun and benefits of an educational and interesting hobby' avers Deskins, whose station is K6-IHF. Young Magnussen's is K6-DWH. Both 'work' many other hams around the world.

The club is being formed to carry on the work of John and Neva Fredenburg, killed in an auto wreck. This couple had loaned sets and taught many youngsters the art of radio, had helped many a lad keep busy--and out of trouble.

Purposes of the club, open to all in this vicinity:

1. To train, free of charge, prospects in ham operators for their licenses.
2. To organize Alpine ham operators for a national emergency.
3. To promote good fellowship and sportsmanship in competition.
4. To hold drills and hidden transmitter hunts and the activities of a good amateur radio club.

For information call Deskins, HI5-2706 after 5:30 p.m. week days, all day Saturday and Sunday, or H.T. Magnussen, jr., HI5-2767. Meetings to be announced and you don't need an outfit to start.

### JEWELRY CRAFT GROWS FAST

Les Ramsay, of the Tavern studios where they make the new enamel-copper bolos, earrings, buckles, etc. reports the volume is upping so fast that they have had to tool up for making their own parts. A small press punch has been ordered and they will soon be making their own silver castings line to augment the copperwork. Also the gemstones are now being rounded and polished by machinery recently installed.

**FIRE BUDGET FIX FOR 27TH**

The board of commissioners, Alpine Fire Protection District, have served notice that they have adopted the preliminary budget, which is now available for inspection at the Alpine Fire House 2435 Highway 80, until final hearing. This will be at 7:30 p.m. on Mon. June 27, at the fire station, when the board meets.

'Any taxpayer' says R. Oeser, of the board, 'may appear and be heard regarding the increase, decrease, or omission of any item, or for the inclusion of additional items'. The board includes, besides Oeser, Al Hinkle and Paul Black.

**SCHRADE TELLS OF NEW BILL**

From Sacramento comes a letter to the Sun telling about the passage of Senate Bill 1062 which the Assembly passed 47-14 after long debate, sent to the governor to sign. It would make parents financially responsible for property damage by youngsters.

He also mentions that the boys from the South are working hard on water for this area.

'Assemblyman Frank Lanterman and I', he writes 'made a trip to Oroville viewing the Feather River, proposed location of the dam, canals, etc., which may someday supply us with ample water.' (Good work, Jack).

**MRS. BREITHUT TO S. D.**

After selling her duplex here and living some time in E.C., Mrs. Florence Breithut has moved to S.D., taken a Sun subscription. With her check she wrote 'I miss Alpine, believe enough in it to retain my 465 feet of business frontage for the future. . . I think your house numbering is one of the best things we've had for some time. Now we can readily tell people where our homes and property are'.

**YOUTH CENTER DISHES STOLEN**

During one night of last weekend someone broke a kitchen window, entered the Youth Center, made off with several boxes of dishes, loss was \$50. The ware was to have been placed on shelves this week, reports the president, Mrs. Frank Doerr, who informed the sheriff, turned over a blackjack the thief had forgotten.

'The center will be patrolled three times a night' she says, 'we believe it was done by someone outside Alpine'.

**HAGES, ELKS TO PICNIC HERE**

June and Bob Anderson who built the beautiful Shady Rock Ranch for large picnics, reveal that they are booked solid for June, with two huge picnics slated with over 800

coming here to enjoy their annual frolic. They are Hages of S.D. with 300, and the Elks Lodge of E.C. with 500. The ranch is fast nearing completion. The swimming pool is in operation, and all in readiness for the big fun. This will bring great benefit to Alpine, they believe.

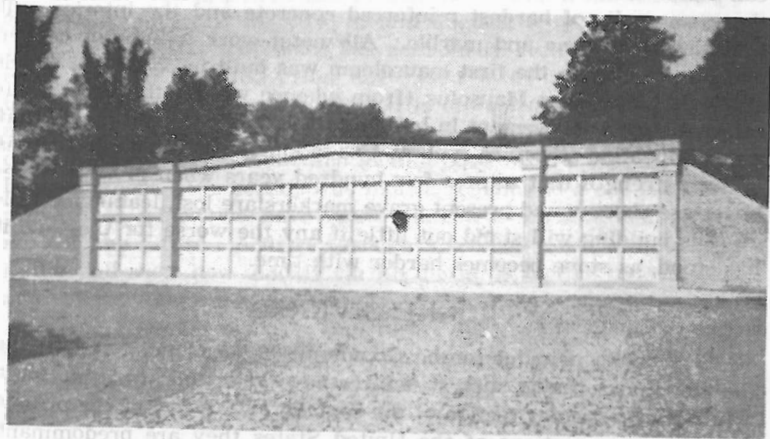

**ARTIST PEGGY BISHOP HOME**

After an absence of 1½ years in the east and a long stay in Europe, Peggy Bishop, Alpine artist, is back to make her home here, now living on Highway 80. She visited her daughter Margaret, and her husband Lt. Comdr. H.T. Jones USN, at Norfolk, who left on the naval Mediterranean Cruise. They are still in Italy. Mrs. Bishop returned on an Italian freighter, a 53-day voyage which gave her the chance to see many foreign ports including Panama and South America.

**SUGGEST MORE STREET NAMES**

Louise M. Bennett sent in three suggestions for naming the first road north after passing Melody Lane Motel, off Highway 80; Mountain View Drive, Louise Drive, Hilltop Drive. (Send yours in soon to the Alpine Sun.)

"The honeymoon is that part of a girl's life that comes between the lipstick and the broomstick."

**A Place of Permanent Burial**

**A COMMUNITY MAUSOLEUM**

**FOR THE ALPINE CEMETERY**

**ALPINE, CALIFORNIA**

The survey of the community will commence on Monday, June 6th. We feel this is going to be a nice thing for Alpine and urge everyone to assist in any way possible. With the purchase price of the property by Harrell & Co., in the cemetery we hope to be able to put water in and do a lot toward beautifying it. By backing this project you can help yourself and Alpine also.

## THE MAUSOLEUM

Final arrangements have been completed with the Alpine cemetery board for the construction of a Community Mausoleum in this city. The building will be as fine as money, art and science can build. The exterior walls will be of time defying native stone; the inner walls of hardest reinforced concrete and the interior will be finished in stone and marble. All metal work will be of copper and bronze. Since the first mausoleum was built in 353 B. C., which still exists, for King Mausolus (from whence we get the word mausoleum) such improvement in building materials has been made, that a double walled structure such as this is almost indestructible. It is of such strength that after a few hundred years when present cemeteries are obscure and present grave markers are lost, leaning or fallen, this building will stand out little if any the worse for the time it has stood, as stone becomes harder with time.

### PROGRESSIVENESS

A growing demand for the Community Mausoleum is shown by the fact that so many such structures have been and are being built. While this particular section of the country have a few at the present time, in many sections of the United States they are predominant. In the past the excessive cost has made this type of burial out of reach of the average man but now it is actually cheaper than the average ground burial.

### OUR DUTY TO THE LIVING

Since the beginning of time it has been man's custom to reverence his dead and it becomes a comforting thought in any age to know that one has done all possible and has given his loved one the most suitable resting place which the present time has to offer. This building provides a place where families may lie side by side in snow white compartments, high and dry, above the ground where neither water, dampness nor cold can enter. Embalming has reached such a high state of perfection that if a body is kept dry it will retain its present condition for centuries to come. This was true in Egyptian burials because they buried where water and dampness was non-existent, however water or moisture quickly nullifies all of this.

To make provisions for a final resting place, which will be secure, ready, and one which cannot be molested, is not only a duty owed to our dead but is evidence to the living of our desire for their well being both now and for always. To put off arrangements until the time arrives is no better business than omitting other business transactions until the last moment. In the case of death the grief is so great and decisions so numerous that many regrettable and unchangeable mistakes are made.

### THERE IS A BETTER WAY

From time immemorial it has been customary in Europe for families to select a final resting place for their members in advance of actual needs. This sensible practice has now become the custom in America among thinking men and women.

Death is no respecter of person or persons, and sooner or later every family must face bereavement. The average death follows a period of heavy expenses, often accompanied by loss of income. The insurance that was intended for the care of the loved ones or the education of the children is depleted and the family left in debt.

A final resting place must be selected within a limited time, regardless of finances, weather, mental anguish or personal inconvenience. Frequently the choice has necessarily been left to a disinterested outsider and too often have such nasty arrangements been the cause of everlasting regrets. It is often true that these sad but absolutely necessary arrangements are hampered by lack of adequate funds or lack of time and mental poise for the exercise of one's best judgment. We consign the mortal remains to a shallow earthly grave over which we have scant control at present and probably none in the future. A drive through a cemetery which is no longer in use will show how quickly earthly burial is allotted out, the grave and stone obliterated.

Only when the mind is undisturbed by grief or financial uncertainty, can this important duty be disposed of calmly and intelligently. Every family deserves the protection which the ownership of Mausoleum space offers.

### REASONS WHY YOU SHOULD SECURE SPACE

Because: The same business judgment demands it, that prompts you to save money, to carry life insurance and to make your will. Now in the calm of health you can consider and choose that which you think is best, an almost impossibility when a death occurs and the family's mind and judgment is racked with despair.

Because: Mausoleum entombment is a scientific and civilized, as well as a sentimental mode of caring for the dead. The only way to keep a body perfectly preserved after it has been embalmed is by keeping moisture and dampness away from it.

Because: At present the cost is no more and in most cases not as much as ground burial when a lot, monument, steel vault and other cemetery expenses are considered. The Building is the monument, far surpassing in size and beauty any other form of monument or memorial. Owners have free use of the interior of the chapel for funeral services, thereby avoiding rain, cold and snow.

Because: This mode of entombment is both reasonable and scriptural. Our Lord was laid in a rock hewn crypt and early Christians followed this custom. The wealthier class of people have used this type of burial almost exclusively for many centuries and most of our national heroes have been buried in stone tombs or mausoleums. Some of which include Grant, Lincoln, Garfield, Washington and McKinley. Modern mausoleums now make this type of burial in reach of almost everyone.

Because: When you place the familiar form of any of your loved ones in this memorial, it will be a great comfort to know that they are at rest in a clean, dry, place free from the disagreeable features of ground burial.

Because: Preparation is wisdom's cure for worry—the only cure. Insuring the house does not prepare it to burn, but prepares us to

live without worry as to the ever present possibility of it burning. Providing for mausoleum protection is not preparing to die, it is preparation to live without worry as to the ever present possibility of loved ones dying and being placed in damp cold graves.

Because: It is an investment. It cannot be damaged or destroyed and will be worth more in later years than it is now. Due to the fact that when a Community Mausoleum is built in a town this size, all space is contracted for before it is built; therefore space is limited to those who have bought, and cannot be used except by those, unless one of the owners desires to sell his or her interests.

### THE INEVITABLE—FOR WHICH WE SHOULD PREPARE

If you desire to be prepared and assure yourself and family a permanent and clean resting place, you should inquire for particulars about the mausoleum to be erected in your city. The cost now is in most cases not as much as ground burial when all expenses are considered. Reservations should be made early because the amount of space is limited. In the event of death between the time of securing space and the completion of the Mausoleum, the expense of renting a receiving vault will be borne by the company. In the event anyone has relatives already buried in the ground and desires them space, arrangements can be made for the transfer.

### WHERE WILL YOU PLACE YOUR LOVED ONES

You have the choice of only three modes of burial. Ground burial which means a cold, black, damp grave. Cremation in which fire blots out name, form and memory. Burial in a mausoleum with its dry snow white compartments of stone and marble. Which shall it be? Eventually you must decide.

This project is being financed and supervised by John R. Harrell of Louisville, Illinois. Anyone desiring information, photographs, etc., please contact Mr. G.E. Morford or Mrs. Jane Dunn of Alpine who is the local representative for the Community Mausoleum. There will be no obligation whatsoever on your part for a detailed explanation of this subject. It will be an asset to you, to the cemetery and to the community.

### HOUSE NUMBER NOT FOR PO

Two phases of the new house number plan that has just been put into effect in Alpine, must be cleared and observed, say county officials and Philip G. Hall postmaster.

First, house numbers are not mailing addresses, and these numbers must not be affixed to mail boxes, says the PM, in a letter to the Sun. He says that 'a number of pieces of mail are coming addressed to house numbers. . . continue to use post-office or Route 1 box numbers that have always been used'.

T.L. Yakel, county man in charge says 'what we are doing is assigning a street address and not a post-office address. That is up to the postmaster when the town gets big enough to have mounted delivery using street addresses'.

He adds that they would like 'to see all numbers up by June 15, the deadline prescribed by the ordinance. In communities where house numbers have been inaugurated, everyone concerned has greatly appreciated them and found that emergency calls for fire, police, ambulance, doctor, also utilities and deliverymen, prove it very advantageous'.

Your number should be up as soon as possible, visible from the road, in numerals at least 2½ inches tall. You may get same at Alpine Hardware or Al Hinkle.

Louise Bennett, president of Alpine's Masonic Club Auxiliary invites the wives of Masons to join their club which meets the first Wednesday of each month at 8 in Fuller Hall. Call her at HI5-2889 for information.

CLERK: "These are very strong shirts, Madam. They simply laugh at the laundry."

Customer: "Yes, I've had some of that kind. They came back with their sides split."

SEND THE SUN TO A FRIEND AWAY.

Since new homes can be bought and moved into with nothing down the public has become very choosy in buying as well as renting. Just as it is hard for the small merchant to compete with big business, it is equally as hard for the individual home-owner to compete with mass construction.

**ALPINE LADS WIN AT FAIR**

Steven Mercer, son of Dr. and Mrs. Robt. D. Mercer, won top honors in four divisions at the livestock show of the E.C. fair, and Chas. Beech brought home the blue ribbon for banty hens. Mercer showed the champion sheep, top yearling, ewe, top middleweight beef, and made first in beef showmanship.

Mr. and Mrs. Fred Rohr, he runs the meat shop in Florence's Market, are back from a 7700 mile drive to Atlantic City, visiting friends and relatives along the route, report a wonderful vacation.

**HOUSE NUMBER FOR FIRES**

The easiest and quickest way to report a fire-- which we hope you won't have to do-- is by giving your house number', Fred Whiteman, in charge of Alpine fire station declares, in giving his opinion on the house numbers now in effect.

'The plan is a wonderful help and we are spotting your home and business numbers as fast as we can on our big map. These numbers help us get to your place in a hurry, and they also help many others who come to us to find where people live.' Incidentally, the fire station is 2435 Highway 80.

**NOW FLIES SWAT SELVES!**

Hunk Anderson, genial co-owner of Glenview Feed Co., is telling everyone around the back country about a new deal to 'rid the rancho, home office of flies.

'The stuff's a real miracle' says Hunk, 'as the flies actually swat themselves when they eat Fly Bait, a new product by Purina. All you do is scatter a little of this dry bait around and it keeps on killing them for weeks, and it's fast - one taste and they're dead while you watch'.

**LANDINO BURIED HERE**

Services for Augustine Landino, 49, were held Wednesday at 2, from Paris Mortuary, with burial in Alpine Cemetery. He was killed in a tractor mishap a week ago in S.D. He was a native of Conn., had lived in Redondo before coming here three years ago. He operated heavy equipment.

Survivors are two sons, Tony, USN, and Jim, Alpine; a daughter in San Bernardino, two brothers and a sister in Santa Cruz; his mother and three grandchildren.

Jean Sauter, Alpine Hardware, and his wife Ann entertained his sister and husband, Mr. and Mrs. Ernest Wood, of L.A., last week-end. They drove them all around Alpine and Pine Valley. They wrote that the return drive back to L.A. took five hours, the fog and smog were so bad.

Cecil Lewinson and wife, with his sister Marie, who had been occupying the Highlands, which was auctioned recently for \$55,000. have moved to the Habit Motel for temporary residence till their plans are completed.

**BOOKKEEPING SERVICE STARTS**

Alpine has another new business, a bookkeeping office to serve the many businesses, professions, farms and ranches in the mountain area.

It is Alpine Bookkeeping Service, brings into being a plan Mrs. Wm. Suter has had in mind for some time. Meriel Suter has been doing this work for several friends and clients since she discontinued her S.D. office and moved to Alpine. So she has opened an office in her home, 4211 Willows Road, until suitable space can be found downtown.

The services of Frank Janowsky, public accountant, will be available through her office, she says, for those who prefer such services. Janowsky is a native San Diegan, went to school there, including State College, and has operated his own successful accounting office there for 11 years. Mrs. Suter's clients will have access to his accounting and tax experience, excellent staff and complete modern equipment.

'In Alpine we plan complete book-keeping services' says Mrs. Suter, 'including payrolls, payroll taxes, sales, federal and state income taxes. We will also set up new systems and provide financial statements, and of course, furnish pickup and delivery service so that the books will be up to date and available at all times'.

Note- We are happy to welcome Mrs. Suter to the growing fold of business folk in Alpine, and know that her plan will be an instant success. The Sun has mentioned the need of this service for some time. Contact her at Hickory 5-2468.-Ed.

Bob Frenzel had a blessed event at his rancho the other day, a cute little filly by his beautiful mare.

"HOW can you cure someone of snoring?"

"Easy. By good advice, co-operation, kindness, and stuffing an old sock in his mouth."

IF YOU LIVE HERE, BUY HERE!

**80 CHAMBER HEARS FINE TALK**

A record attendance of 40 Highway 80 chamber members enjoyed a splendid dinner at the new Mill Stream Supper Club and a fine talk by Jack Lyons on the 50th anniversary of Cleveland National Forest. President Don Walker was in charge with Humphrey Lane running the program.

'Mayor' Hutchins of Johnstown-- which he says is going to get 80 widened here-- reported the astonishing news of 21 new members!

Lyons, former missionary in China, and an adept speaker, aided by a map of the forests, showed how valuable timber and watersheds are to the water economy of the county.

'Nine out of 10 forest fires' he said, 'are man-made, with dire results, as the La Canada disaster where floods killed 40 because fire had denuded the mountains above town'.

The forest, 432 square miles, is 10% of county land area, he stated, and residents there cause 60% of fires. Value of this great water factory is proved by the fact that the county thus produces 75% of its water, and needs are increasing. They recently secured \$37,000. for camp sites, improvements and so on, which are now used by all, who spend 3 million man-days in the forests!

'Each fire costs us 3 to 4 hundred thousand dollars to suppress' he revealed, 'federal cost last year being \$10 million.' He told of the need for more firebreaks, to help save the forests.

**ANOTHER LAD FOR SAN SOUCIES**

Michael Anthony is the name of the second son to arrive for Bill and Natalie San Soucie, born at Mercy Hospital last Friday week. Natalie had a fine birth, bringing in the 8 pound 2 ounce youngster, a healthy little man.

**CRONIN FAMILY BUY HOME**

The Gaylord W. Ericksons have sold their home, Willows Road, to Mr. and Mrs. Everett H. Cronin, who with their three children, are moving into the big house. Sale was through Alpine Realty Co.

Mrs. Lief Larson, the popular artist, is in Naval hospital for 10 days to undergo a small operation, having gone in Monday. Lief and daughter Jenny are holding down the rancho in the meantime.

**FIRE DESTROYS TANK HOUSE**

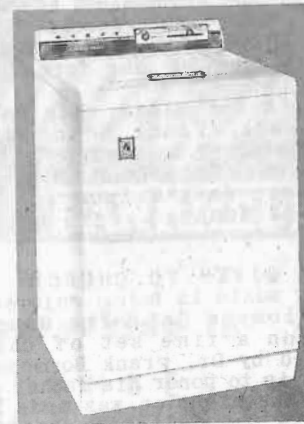

Over \$1,000. damage was done to a storeroom, tankhouse and tank at the Parke Smith place, 545 Alpine Heights Road, last week when a blaze of undetermined origin started about 11 p.m. as the Smiths were seeing TV. Suddenly the picture failed, the lights went out, and they discovered the pumphouse afire. Alpine firemen made a fast run, quenched the blaze. Smiths paid high tribute to the volunteers for their fine work in stopping the fire which might have endangered the house.

**ALPINE WOMAN'S SON HONORED**

Chas. Jeffers, talented young actor-director, son of Mrs. Dorothy Hall, has brought honor to S.D. for receiving the Carolina Playmakers' Master Award at the U of N.C. where he has studied the past two years. He is coming home this week to take part in the Old Globe's Shakespearean festival.

His award is most varied in praise of his versatility: actor, stage manager, electrician, set designer, master of properties, lighting designer, hooper, director and author!

**NEW CAFE MAKES HIT**

The Mill Stream Supper Club, recently remodeled and opened on the south side of Highway 80, Twin Oaks, has made an instant hit with folk up and down 80, besides many travelers. New owners are Rich and Joan Champion, and her father, Wm. Levithure. Rich is a plumber in S.D.

The trio worked like beavers on the remodeling and decorating which is really outstanding, and modern. The main dining room seats 60, and special parties are serviced. It is air conditioned. The other room, with bar, counter and a few tables, takes care of regular business. A unique feature is the ceilings, where they used eggcrate separators which act as insulator and sound-proofing. This unusual ceiling causes much comment. The Champions have two children, Catherine, 5, and Anne, 2.

**CHAMBER TO NAME DIRECTORS**

Five new directors are to be elected by Alpine Chamber of Commerce out of a slate of 10 nominated by the committee named by Pres. Wm. S. Lethbridge, reports John R. Reynolds, secretary.

Ballots must be returned by Tuesday June 7. Four new directors will be in for three years to fill terms expiring June 30, one for a year to fill a vacancy.

Here is the slate: Don Bates, Paul Black, Frank Bornowski, Isaac Chutor, W.A. Mayne, Robt. D. Mercer, Mark Schaeffer, Mrs. K.H. Tappmeyer, Jack Wilson and Mrs. Jessie A. Young.

**CHIMES GIVEN TO CHURCH**

Lovely music is being enjoyed at St. Philomena Catholic Church, played on a fine set of chimes presented by Dr. Frank Bornowski. The gift is to honor his father and mother. Installation was made last Friday so the music was heard on Sunday and during the annual fiesta.

Soldier: "Why do you say I'm a great lover?"

Girl: "Because you grate on my nerves."

**REALTOR SAYS LUCK ON BANK**

J.H. McKie, jr., former Alpiner, writes the Sun, expressing hopes that the Sun's project of a branch bank here may be realized: "Dear Clarke: I notice that you are after a bank in Alpine. Good luck. I worked on this at one time when I was living in Alpine. Had it pretty well along but outside interference killed it. In fact, at one time I had a representative from one of the banks looking at property to buy. I am afraid that you will find it quite hard to establish a bank there'.

Note- This project, like many another that requires patience and contact with many important people, is moving along and we hope to have some definite information from L.A. and S.F. before long. We feel that if enough folks help on this, we will get a bank here-- someday. - CI

**CRASH KILLS ROBT. STOCKMAN**  
Masonic services at Greenwood Mortuary were held Wednesday last week for Robt. Stockman, 40, manager of Morena Lake, who died after his car went off Highway 80 below here and hit a tree.

Burial was military, in Ft. Rosecrans National Cemetery, Stockman having been in the submarine service in WW2. He was a native of Iowa, had lived and been schooled in Alpine.

Survivors, besides his parents, Mr. and Mrs. E.E. Stockman, are his widow Nancy, and two children, Suzanne and Billy. Ed is a popular Alpine man with Al Hinkle Lumber, which establishment was closed the day of the funeral.

3 WRECKS- FROM PAGE 1

youth made him swerve.

Trailer and contents were demolished and the car was badly damaged. By some miracle the four crawled out of the car without a scratch. Traffic was slowed for four hours while Alpine Motor Service cleared the mass of wreckage. Highway Patrolmen R.G. Tanner and D. Bullard efficiently handled the heavy traffic. It was all covered by insurance.

Adcock was starting for Norfolk, Va., to attend school, having sold the home, 920 Melrose, National City.

That night Larry Rooklidge, La Mesa Chevrolet dealer of Alpine swerved to miss a big truck, went into a bank on this grade. His car was badly damaged but fortunately he escaped injury.

Another Alpiner, John Da Silva, who runs a bar on Highway 80, was seriously injured when his car hit a pole after a tire blew. He is in La Mesa Hospital. The car was demolished.

Alpine needs a tasty bakery.
