NEW FAMILY BUYS HOME HERE

The splendid future of Alpine as a fine residential suburb of SD is fast arriving, for this week came another nice new family from Chicago.

They are Mr. and Mrs. Andrew L. Timson, with three young people: Lin-

Timson is a retired sales manager for a large insecticide firm, but will keep busy with a franchise for Print-O-Tape in territory from Santa Ana south. They moved into the lovely home they bought from Martin Lacko who built it in 1965 at 2707 Via Viejas in Palo Verde Ranch. It is on 2½ acres, with 4 bedrooms, 3 baths and a 2-car garage with scenic view of the lake and mountains.

NEW PO MAY BE AT OLIVEWOOD

Wednesday R. A. King of the post office department who is working on the location for a new and much larger facility here reveals that they are considering the south-east corner of Arnold Way and Olivewood Lane, owned by Barney and Agnes Ratliff. They own the present postoffice.

"Review is being made by county planning" said King, "so we do not yet know what the outcome will be as we must have 190 to 200 feet depth and the zoning is commercial but for 100'" (See Sun April 26, 1968).

IDAHOAN RUNS WESTERN WEAR

Recently Mrs. Yula Harris, native of Idaho, and well experienced in running shops that handle exclusive ranch togs, tack and so forth, became manager of the popular Alpine Western Wear, 2111 Hwy 80, adjoining Rexall Pharmacy.

She spent 7 years with the old Frontier Shop in EC, more lately was with the Porters in Scottsdale, Ariz.

"I'm happy to meet so many old friends here" she says, "and we are getting more visitors all the time. Business is really good and we now have just about a complete stock".

COULD LESS SUGAR MAKE THE WORLD PEACEFUL?

In the current issue of Today's Food, a publication from the Seventh Day Adventists at Riverside, is a rather startling story on how sugar consumption might be reduced to the minimum and thus maintain normal brain function.

We hold that if people were in perfect health they would act normally, and normal folks would not fight, or do many of the things that are today ruining civilization-- war, murder, robbery, corruption and so forth.

The story shows that one of the most fascinating discoveries of recent times is the exploration into the mysteries of the brain "The most highly organized apparatus in the universe". This remarkable organ consists of 10 billion nerve cells or neurons, with masses of supporting cells, a communication net-

work that reaches every part of the body.

Electricity at fantastic speed keeps this amazing machine working. Asleep or awake, an adult brain operates on 20 watts of energy. The source is the individual nerve cell, each of which is a tiny dynamo.

Its fuel is glucose combined with oxygen. That is why, if the brain does not get oxygen for a few seconds, life is gone and death ensues.

Glucose is a sugar, but one should not eat more sweets to give the brain more fuel.

Now here lies our problem which makes people say of some "He's off his rocker". Too much sucrose (sugar) in the blood raises the blood sugar to above normal, causing insulin to be secreted into the bloodstream. This usually sends the blood sugar to below normal, which gives one the same reaction a diabetic gets from too much insulin.

The brain operates on a momentary pickup of glucose from the blood, therefore, if the blood sugar goes much below normal, there is not fuel enough to function properly. The lower this sugar, the more abnormal the behavior.

Thus there are many who act strangely and are even in mental jails simply because they have been eating too much sugar as in desserts, candies, sodas and other items containing sugar. So you see it is most important to stay away from sweets to the minimum to maintain normal cerebral functioning.

So to keep our boys out of war and others out of asylums, we better cut out so much sweet eating!-CI

The Daley firm, working like beavers on their section of the freeway through Alpine proper, just finished the access road bridge south of Hwy 80 to handle traffic off new US 8, at right. HORSE TALK

By The Double C's

Only 14 more days till Alpine's first big Rodeo and we are getting more and more excited about it. Call me at 445-2394 if you haven't already gotten your tickets and I will deliver them personally. Am trying out for the queen and my only chance is to sell more tickets than anyone else, so help me out, if you will.

Sure was surprised to wake up Monday morning at 8 am and find 12 tons of hay in our back yard. Mama had ordered it and didn't say anything. We heard the big crane unloading it and were glad to see it, as we were down to 3 bales. McCall's Ranch School took

the trailer load so we will all have hay to last us for awhile.

Gary Menconi was out riding the new Appaloosa mare his mother traded Candy for and he likes the horse. She is expecting a colt soon so that will be two colts Gary gets to raise and train.

Don't forget Sunday's work party at "Gary's Alpine Acre". Bob and Nikki Menconi, his parents, put up a huge ring on Hwy 80 at the Willows for all Alpine to use and are having a work party with BBQ in the evening for all who worked on the project and also those who came up and worked on Sunday. All leveling and grading have been done and all that is to be finished is painting and a few other things. Nikki and Bob invite horse enthusiasts to come up and get acquainted and lend a hand. It will be nice, especially for those with horses.

I took my 2½ year old colt Angel for a ride to Alpine Monday and she was an Angel. We went through all the 80 traffic, up Eltinge Drive, around South Grade Road and she was just wonderful. She has had extensive training for a month and is a living doll. Sure am happy with her.

Hope everyone has seen the big fiberglass longhorn steer that Woodie Mitchell has mounted in the back of his pickup advertising Alpine's First IRA Rodeo. It is a cute idea and draws lots of attention. Also the hug 16 foot sign at the Convalescent center entrance is another eye-catcher.

Doug Payne and his family gets up every morning expecting to see a new colt from their mare Gracie. One of these days they will be surprised and it will arrive.

Bruce Hill was home for a week to visit his family before being shipped to Thiland where he will be stationed for the next 12 to 14 months. He surprised his parents by just walking in, enjoyed his stay and they were glad to see him. Bruce is a corporal in the USA.

YOUNG SWINLAND MARRIES

Dwight Swinland, 19, son of Mrs. Shirley S. Elston, former Alpiner, now of Davis City, Ia., was married June 29 to Linda DeLong, 18, of Oceanside, in St. Anthony's Episcopal Church in that city. Mrs. Elston and daughter Michelle came out for the wedding. The couple enjoyed a brief honeymoon at Big Bear Lake. They will live in Vista as the groom attends Palomar College. Don Roccaforte of Alpine was best man, his wife being the former Cottie Swinland.

UTILITIES GOING IN BIG NEW TRAILER PARK

Here is view from bank at northeast corner of Vista Alpine Mobilhome Estates on Hwy 80 which is slated to open by end of August, says Alex Doig, in charge for the Sickles firm, owner-builder of the 151-space enterprise.

Continual delays have been met with due to hard granite rocks in the way of trenches for water, sewer, power, phones and natural gas. This looks southwest, shows homes along Hwy 80 and Eltinge Drive. When fully occupied, project should add around 500 newcomers to present population of 4100 odd.

Mrs. Clinton Black is still in El Cajon Valley Hospital, suffering from a broken hip sustained in her home the night we had the power off for an hour.

MRS. ROETHEL'S MOTHER IS 99

One extra tall candle on a red, white and blue decorated cake was the unique tablepiece at the July 4 party for Mrs. Florence Estep, mother of Mrs. Ed Roethel who gaily celebrated her 99th birthday at the Roethel home on Holly Drive. She makes her home with the couple. She is a retired registered nurse, is hale and hearty, attributes her lively longevity to being a light eater, always watching her diet, keeping her weight down, being busy, and exercising and having a blood pressure of age 30!

They entertained quite a number of old friends, including Mr. and Mrs. Glenn Rosecrans, who flew out from Tulsa for the occasion. They have been warm friends for 37 years.

ALPINERS ENJOY SOUTHERN TRIP

A delightful trip to Columbia, South Carolina was enjoyed by Mrs. June Smith and her two boys, Steve and Mitchell. They flew both ways, visited her parents, Mr. and Mrs. James Melton, who are living on 105 acres of beautiful wooded property Mrs. Melton inherited from her parents. She was raised there and the trees, 20 foot stream, and the creeks are the same as when she was a child.

Mrs. Smith said that the underground springs, rain and humid weather make things grow a foot in one day. The roadway is being put in along the property and before they would get it paved the grass was knee deep.

The family took side trips to North and South Carolina, also Virginia and said "we had a marvelous time. Was our first trip back and we found everything so different and interesting."

PAST PRESIDENT'S CLUB MET

An executive board meeting of the Las Donas Past President's Club was held in the home of Mrs. Edward F. Maczko, Wednesday.

Plans were outlined for the coming season and especially the next meeting held July 30 at Sir George's Restaurant in Chula Vista at 10 am with a no host luncheon.

The charter of this new club was presented at the state convention, California Federation of Women's Clubs in May at LA, and they became a federated club of California as well as general. Presentation of the charter was made by State President, Mrs. Walter Harness to Mrs. Frank M. Laswell, who was then president of So. District, of which this club is affiliated.

Membership is open to any Past President of a Federated Club.

Being a pioneer he was a member of the SD Old Timers Club as well as the East End Kids. He served as president of the Ramona Rotary Club and the County Grange.

Mr. Walker was engaged in the furniture and mattress business in La Jolla and Ramona. His hobby of rug weaving occupied his time since retiring a few years ago.

The father, F. B. Walker settled here shortly after the town's real founder, Benjamin Arnold, started Alpine on its way to becoming a town. He bought land on both sides of the country road that later became Hwy 80, now Willows Road. He built a nice adobe home that was known as The Willows. Soon cabins were added and the spacious dining room turned into a public one, frequented by tourists and visitors from SD. For many years it enjoyed popularity, in the 30's being run by Dorothy Walker Noble, later owned by Mr. and Mrs. Mark Schaeffer who ran it for several years as a motel.

Mrs. Jeanette Hinkle who was operated on last Tuesday week is still in the hospital but is getting up some, hopes to return home soon.

VINNELL CREW STRIKES IT HARD

This is why Hwy 80 is closed several hours in daylight so the Vinnell Corp. can blast and clear road for Interchange at upper Willows Road where it joins present highway. Largest earth handling machines load rock and earth, haul it to one of deepest fills in state to carry eastbound lanes of US 8.

LIVELY OAKS DOINGS

There were 36 members on hand at Monday's meeting to enjoy the day and the lively discussion about what the club should do for the 200 anniversary coming up for SD.

Mr. and Mrs. Wallace Coppock introduced their guest Mrs. Carolyn Ingling from Miami, Fla and Gladys Pinkerton read the letter from the Alpine Chamber of Commerce inviting all to the Wednesday meeting.

An interesting card was received from Dorothy and Phil Hall who are touring Europe.

Mr. and Mrs. W.K. Turnbull of Wheaton, Ill, are visiting Mr. and Mrs. O. Mack for the summer, she is Mack's sister.

INVENTS SOLAR WATER STILL

What may prove a revelation to users of pure domestic water is being tried out in Alpine. It is the invention of Horace McCracken, who resigned as a field engineer with General Astronautics to devote all his time to the project.

The first model of a household type is now making a gallon a day at the Irvine Ranch. McCracken is the owner of Sunwater Co., 10404 Mission Road in SD, 92120. He has 25 larger stills in the field, 7 in Mexico, 4 in the desert, 8 in LM & SD, the rest in other locations. Largest is producing 25 gallons a day in Ballarat, Calif.

His firm plans on 2 domestic sizes, a 5-gallon bottle a week at \$45. and a 10 gallon per day bottle at \$75. They are no trouble, just place water in a receptacle and out comes pure drinking water.

"HOW," asked the business executive, "can I get this message to every married woman?"

"Very simple," answered the publicity man. "Just address letters to every married man, and mark them all 'Personal.'"
