### OLD VIEJAS VIEW HOME SOLD

There is a guest house included on the 2½-acre site, 2725 Vie Viejas in Palo Verde Ranch which Auren Pierce developed after buying from LaShelle. The ancient sign Viejas View Ranch still stands at the old entrance on South Grade Road.

The guest house was occupied by Don & Billie Hart. She is the Sims' daughter. The deal was handled by Mary Browne Realty of LM.

## SCIENTIST'S ASTOUNDING DREAM WORKS FOR US.

Perhaps only a few of the millions who enjoyed the splashdown of Apollo 10 off Samoa in those limpid waters of the South Pacific, realized that what they saw on TV was the result of the dream of John R. Pierce, communications scientist at the American Telephone & Telegraph firm's Bell Laboratories.

His dream was sparked by a British science writer, Arthur Clarke, who, in 1945 wrote in *Wireless World* about extraterrestrial relays. Thus he was the first to propose communication satellites which led up to the present miracle Telstar.

Way back then, before the space age began, Clarke envisioned the three stationary satellites circling 22,300 miles aloft to cover the entire earth with radio, TV and phone messages, which we use today and think little of it.

Thus we were able to enjoy the Apollo drama, and many other events around

the globe instantaneously via the three circling objects. Echo was the first, a mylar balloon inflated by gas after being fired by rocket. Today the three are working every minute to serve mankind.

As radio waves will not go through land, as the earth's curvature, the satellite receives the transmission, reflects or echoes it back to another station on the ground. So with three such space stations, transmission may circle the globe in seconds.

Pierce, raised in California, was an enthused reader of H.G. Wells, himself a dreamer, later wrote some science fiction to help pay his tuition. He was an outstanding student all along, and gifted with perspicacity in science.

Three years before Sputnik, in 1954, he proposed the first communication satellite, the 100-foot balloon of aluminum foil, to ride at a 1000-mile altitude. President Eisenhower's voice inaugurated its history-making flight. Today we use the idea with little thought of its inception.

Pierce believes that "we are living in the most exciting age of man's history, but that not enough people are watching".

You may see Echo, resembling a star, if you scan the western sky after sunset, for the slowly moving, dying satellite, is nearing its demise in earth's atmosphere. We have seen it.

If you want to read this astonishing story, and many others on the magic of the space age, including a special report on UFO's, see "America's Explorers of Space", by Donald W. Cox, superbly illustrated, published 1967 by Hammond, Maplewood, N.J. It will help you understand the untold value of spending billions on space projects. CI

Louis Pick, who drives a school bus here, donated 5 watches for the Viejas barbecue, raffled them off to benefit well-behaved youngsters. Two from the reservation won, three from outside.

### NEWLYWEDS SO HAPPY

Here is Celeste's photo of Mrs. Martha Schwenck, left, with her handsome new son-in-law, Norman Dickman, and his bride Donna, as they cut cake at large reception in Fuller Hall following Friday's beautiful wedding in Community Church.

## HORSE TALK

By The Double C's

Our columns will suffer a little this week and next because we are working at the fair and are staying with friends in Del Mar, so forgive us, and the July 11th issue will make up for it with lots of pictures and news.

Here is an opportunity to buy a nice looking white horse, part Arabian, for only \$150. She belongs to Mr. and Mrs. J.D. Cox's granddaughter. She doesn't ride her, so wishes to sell to a good home out here in the country. Call 442-

4024 if interested. It is a small mare, sounds like a nice animal for a youngster, to us.

Maureen Carrell and her relatives from New Jersey have reserved a campsite at the horse camp over the 4th, are taking 5 horses up for the long weekend. Sounds like fun. JoAnn Villa might trailer her horse Mark up to be with them but isn't sure if she can go.

Jesse and Barbara Jones, Arnold Way, were disappointed Saturday when their gelding Chocolate Joe threw a shoe and couldn't be ridden at their party. They entertained the Free Methodist Church of Grossmont at their ranch last Saturday and nearly 50 came to the potluck. Most of the younger kids were disappointed about the horse.

JoAnn Villa and Maureen Carrell were out riding last weekend and ran into a small rattler. They are out, so if you ride or hike, be sure to look where you are going and avoid a lot of trouble. Most snakes are not aggressive and will try to get away, but just be careful.

We were glad to talk to Bob Frenzel and learn that the state had repaired the hiking and riding trail around the mountain. Someone had dumped an old car body right in the path and it was hard to get the horses to go by but he told us they had repaired it and also the narrow trail that looks down on the river. We have ridden over that trail at night and it can be mighty spooky, and fatal if your horse accidentally took the wrong step, so are glad to know it is in good repair.

### SWEETWATER BRIDGE RISES

Looking south from the cliff above the north fork of the Sweetwater, the piers to support east and west double lanes of I-8 are rising rapidly.

The one at right is poured while the left one is being readied by Morrison-Knudsen workers. A tall crane buckets the concrete up to the top from the riverbottom.

Boy Scout Troop 105 left Wednesday for the Lagunas with Scoutmaster Larry Glavin and Leroy Wedel in charge to spend 5 wonderful days camping and enjoying the mountains.

**WEATHERMAN HAS NO ALIBIS**

Tuesday when the smog was so heavy that a gentle drizzle wet everything the Sun called Weather Chief Anderson at SD to find out when there might be some sunshine.

"We have broken the record" he said, "for we have just had one low pressure trough after another and it may continue for some time".

Regarding the air pollution-- said to be 97% from motor exhaust-- Clark Goulding, new man at the air pollution office in SD turned the Sun over to Dr. J.B. Askew, health chief. He said they are doing all they can, but there must be more done to stop the heavy amount of pollutants discharged. The inverted temperature being higher at times, allows the smoke to reach Alpine.

Note- They better hurry and get an electric or steam motor to drive our vehicles or we may find we have none to buy or drive anything! Sunday's Union and Tuesday's Tribune had startling stories on this most distressing subject. -Ed CI.

## LOCAL ARTIST'S FAMOUS AVIATION MURAL GOES TO SMITHSONIAN

In a note to the Sun Justin C. Gruelle, noted painter of Lilac Lane, writes: 'Dear Clarke:- The enclosed page from the Aeronautical Review of Dec. 1955 will look familiar to you as you ran a cut of the mural in the Sun shortly after Mabel and I moved to Alpine.

"We have some current news about the painting that you may find of interest as both an art and aeronautical item. The mural has been given to the National Air and Space Museum, Smithsonian Institution, Washington, D.C. It is the gift of Clarence A. de Giers, for whom it was originally painted, and the I. A. S. now called the American Institute of Aeronautics and Astronautics.

"When the A.I. A.A. notified the industry, last year, that they planned to sell their building in L. A., the directors of the National Air Space Museum put in a request for the painting. The transfer of ownership was made and the canvas, 18' by 8', was removed

Historic aircraft of pioneer days greet the visitor to Western Headquarters, Los Angeles, in this mural given to the IAS by The Liquidometer Corporation. A key identifies each subject. In the foreground are portrayed (left to right) Lt. H. H. Arnold, Lt. John H. Towers, Clarence A. deGiers, Glenn H. Curtiss, Capt. Thomas S. Baldwin, Frank T. Coffyn, Wilbur Wright, Orville Wright, Glenn L. Martin, Charles L. Lawrance, Octave Chanute, Grover C. Loening, Edson F. Gallaudet, George A. Page, Jr., Lt. Thomas E. Selfridge, Earle Ovington, and Robert J. Collier. Beside Collier is the Wright brothers' engine that powered their first flight.

from the wall and shipped to the Smithsonian in April.

"As you may know, the NA-SM has been occupying one of the Smithsonian buildings and were only able to display a very small portion of their huge and wonderful collection. They have long needed an adequate museum building.

"Congress passed the necessary legislation for this during the last administration and the architectural design has been completed. However, congress may not give the green light for build-

ing to begin until the war is ended. In the interim the painting will be on display in the present quarters.

"I know how you love to fly so I am sure you will be delighted that a national museum devoted to the history of man's conquest of air and space is finally taking shape in the nation's capital."

deGiers is founder of the Liquidometer Corp., and an aviation pioneer, learning to fly a Bleriot single-seater, without benefit of a co-pilot! He holds

FAI license #77; founded his company after WW1. Gruelle painted the mural in 1940 while residing in Silvermine, Conn.

Thanks so much, and all Alpine will be glad to know that one of its dedicated painters executed that most interesting and beautiful mural which many pilot, and resident of Alpine, will surely wish to see. CI

## DAZZLING PREMIERE OF "KRAKATOA"

Center Theatre in SD was the scene of a brilliant first showing of the latest Cinerama film "Krakatoa, East of Java", Wednesday night with Mayor Curran of SD as official host, as part of the 200th Celebration.

SD County's civic and scholastic leaders were guests of Pacific Theatres and Cinerama at this Hollywoodesque premiere at which the famed Grossmont HS band played.

"Krakatoa" stars Maximilian Schell, Barbara Werle, Brian Keith, Diane Baker, John Leyton, Rossano Brazzi and Sal Mineo. The American Broadcasting Companies and Cinerama, presentation in technicolor was produced by Wm. R. Forman and directed by Bernard Kowalski.

This is an adventure-packed film with backdrop of the greatest explosion in history, Krakatoa's memorable eruption in 1883, which caused temblors and tidal waves as far as 6000 miles away.

The plot deals with the effects of the eruption on the lives and fortunes of a group of passengers aboard a tramp steamer on a perilous search for a sunken treasure and a lost child.

Here is one picture, according to reviewers, that is well worth seeing.

Martin Lacko has not leased the store, he told the Sun. A woman considered it, but due to health reasons, did not make the lease of the attractive space at 2144 Alpine Blvd.

To avoid that run-down feeling, look both ways before you cross the street.

## QUILTING BEE IS EXPO FEATURE

Expert quilters will make some colorful pieces and show their oldtime skills at the unique Quilting Bee in the Home Ec Building during the So. Calif. Expo at Del Mar this season. This nearly lost art has been revived of late and visitors at the Expo will have the chance to see just how these beautiful pieces are made.

Many women will be busy at the quilting frame with needle and thread for 12 hours daily that this beehive building is open. Six work in each 4-hour at the frames. Others in the booth will answer questions.

Another special booth will house weavers at work sponsored by the Creative Weavers Guild of SD County. Swiss weaving of 200 years ago will be illustrated, in keeping with the SD 200th Celebration.

## ADVICE ON OBSCENE PHONE CALLS

Don Lloyd, manager, EC exchange of Pacific Telephone, has advised patrons who may receive nasty calls, to at once report to the company.

"While the caller is not always identified," he said, "nor is every case prosecuted, we are successful often enough to make the prospects unpleasant for such a caller".

Best thing to do is hang up, he concluded.

## BBQ SEASON ON SAYS HAYSEED

Another old advertiser the Hayseed Fireside Center, 600 Broadway in ED, is back with a message in last issue that they have "Anything Your Hearth Desires!" in fireplaces, stoves and BBQ's. They had an interesting exhibit at the big Spring Home Show.

A smile adds immeasurably to your face value.

Few drivers going past the SE corner of Tavern & South Grade Roads ever know there is quite a little lake here on the Barrett place. While there is evaporation, and no inflow of water, the pond remains far into the fall.

Water authorities say the back country should build more conservation dams to hold the spring rains instead of letting precious fresh water flow into the sea.

Alpine needs a roofer.

## DOUBLE TALK

By Cecile and Celeste Irvine

Friday night we attended Donna and Norman Dickman's wedding and were thrilled with it. She made her own gown and those of her attendants and all were quite beautiful. The soloist, Gary Wilson, did a thrilling job and after the ceremony they had a reception in Fuller Hall. Linda Nichols was the lucky catcher of her bouquet but said she was not next. Will see!

We are working at the Del Mar Fair for Patricia Stevens Modelling School and will be our booth in the Polynesian section for the duration. Be sure to come by and say hello. Sign up your teenage girls, they might win a scholarship to the school and it helps us too, as we get so much a name for the ones we sign up.

Sleepy Hollow Ranch as seen from air, looking west, taken by Editor Irvine while "upstairs" over Alpine.

Famous old ranch was recently purchased by Ev & Ted Shilts, who are overhauling entire spread as family picnic ranch. They brought some new horses in this week, are building quite a stable, will board and train animals for horse lovers.

Two pools and a possible lake are planned. They have huge vegetable garden, and are working steadily to make the place mecca for families with children and horses. They are on Calif. Hiking & Riding Trail, have built many smaller trails around the ranch.

**MANY CITIZENS OPPOSE SURTAX**

Rep. Lionel Van Deerlin, D-SD, reports that 18,000 answered his April questionnaire on the emergency 10% surtax which was to expire June 30. He says that 43.1% of his constituents oppose continuation which congress used in hopes of stopping runaway inflation.

Note- Everyone we talk to is getting more exorcised over increasing rises of all kinds-- gas, sales, room, phone, property, vehicle, postage and so on ad inf. Where will it end? Where did the Boston Tea Party end?- CI

Mrs. Marie Frey of Alpine Oaks Mobile Estates, slipped and fell in the Uni-mart parking lot and broke her wrist. She got the cast off this week, left for Oregon City where they spend the summer with son Ralph and family.

**MOBILE HOMES  
MOVING IN FAST**

Here is one of the first handsome, modern 24-wide mobilhomes to drop anchor in one of the finest new trailer parks in the Southland, Vista Alpine.

It came in last Wednesday, No. 2 to arrive, with happy owners, Mr. and Mrs. Allan C. Clary. He is a native San Diegoan, Marjorie Lois being born in Nebr. He is a retired GMC of the USN, now head custodian in SD schools.

The home is a roomy Villa West, modern, insulated, air-conditioned and simply beautiful.

**RABIES OUT OF CONTROL**

A small boy is dying of rabies. Many wild animals have been trapped, or killed, found rabid. They can transmit it to dogs and other pets, says the county health office. So keep your dog on leash or penned, as ordered by law. Remember it is illegal to trap skinks. Last year 291 from 27 countries were reported rabid.

The kind of success that turns a man's head always leaves him facing in the wrong direction.
