

Kumeyaay Ethnobotany

Shared Heritage of the Californias

Michael Wilken-Robertson

Kumeyaay Ethnobotany

Shared Heritage of the Californias

Today, many Kumeyaay Indians in the far-flung ranches of Baja California still carry on the traditional knowledge and skills for transforming native plants into food, medicine, arts, tools, regalia, construction materials, and ceremonial items.

Join anthropologist and author Michael Wilken-Robertson as he explores this remarkable interdependence between native peoples and native plants of Baja and Southern California.
